PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Defined and documented business requirements for digital identity solutions, including Identity Verification (ID&V) and EU Digital ID frameworks, ensuring alignment with product roadmaps.
- Analyzed existing customer onboarding processes and identified opportunities for automation, leading to a proposed enhancement that reduced manual intervention by **40%**.
- Facilitated cross-functional workshops with Business, Risk, and Compliance teams to validate requirements and ensure adherence to **GDPR** and EBA guidelines for digital identity management.
- Developed detailed process maps and user stories for the enhancement of digital identity capabilities, directly supporting the successful rollout of new customer journey features.
- Supported User Acceptance Testing (UAT) for digital identity enhancements, capturing and integrating stakeholder feedback to refine solutions and improve customer experience.
- Collaborated with Risk Analysts to assess and mitigate potential risks associated with digital identity processes, contributing to enhanced compliance and security postures.

SKILLS

Business Analysis – Requirements Elicitation, Process Mapping, User Stories, Stakeholder Management, UAT, Agile Methodologies, Documentation, Workshop Facilitation.

Digital Identity & Compliance – ID&V, EU Digital ID Frameworks, GDPR, EBA Guidelines, Regulatory Compliance, Risk Assessment.

Technical Skills – Java Spring Boot, Python, SQL (PostgreSQL, MySQL, Oracle), REST APIs, AWS, Docker, Linux.

Data & Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling, Statistical Analysis, R, pandas.

Operations & Support – Production Support, Incident Response, SLA Management, Change Management, CI/CD (Jenkins), Splunk, Dynatrace.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Digital Identity Verification & Onboarding Platform (HCL Technologies)

- Designed and documented end-to-end business requirements for a new **Digital Identity Verification (ID&V) platform**, integrating with third-party identity proofing services to streamline customer onboarding.
- Developed comprehensive process maps and user stories, translating complex regulatory requirements (**GDPR**, EBA guidelines) into actionable development tasks for the engineering team.

- Facilitated UAT cycles with business stakeholders and compliance officers, achieving a **95%** pass rate on critical user flows and ensuring alignment with strategic objectives.

Payments Operations Dashboard Enhancement (HCL Technologies)

- Supported the production environment for a **payments operations dashboard**, focusing on transaction monitoring and operational alerting for financial-services workflows.
- Automated data validation and reconciliation checks using **Python scripts**, reducing manual error rates in transaction processing by **15%**.
- Collaborated with business analysts to gather requirements for new reporting features, enhancing visibility into payment processing metrics and audit trails.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
