PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Resolved over **150+ critical incidents** per quarter by performing **root cause analysis** on **Linux** systems and **Java Spring Boot** applications, reducing recurring issues by **20%**.
- Automated routine system health checks and reporting across **AWS** infrastructure using **Python** scripting, decreasing manual intervention time by **10 hours weekly**.
- Managed and troubleshoot enterprise systems, including **ERP** modules and operational platforms, by coordinating **change management** processes and supporting **UAT**, ensuring **99.9%** system availability.
- Developed and maintained **Power BI dashboards**, translating complex data into actionable insights for stakeholders, leading to a **15% improvement** in operational efficiency metrics.
- Supported cross-functional teams by providing **ITIL-aligned incident management**, documenting resolutions, and updating knowledge base articles in **Jira** and **Confluence**, enhancing team collaboration.
- Configured and maintained **PostgreSQL** and **MySQL** databases, executing **SQL queries** for data validation and schema updates, and assisting with basic backup operations for critical applications.

SKILLS

Operating Systems – Windows, macOS, Linux, Active Directory, Group Policies

Networking – DNS, DHCP, TCP/IP, subnetting, VLANs, firewalls, routers, switches, VPNs

Cloud & Virtualization – AWS, Azure, Google Cloud, VMware, Hyper-V, VirtualBox

Scripting & Automation – Python, Bash, PowerShell

Troubleshooting & Support – Root Cause Analysis, Log Analysis, System Performance Tuning, ITIL V4, Incident Management, Ticket Management (Jira, ServiceNow, Zendesk)

Databases – SQL, PostgreSQL, MySQL, Oracle

Hardware & Software – Hardware Diagnostics, Software Deployment, Patch Management

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Unified IT Operations Dashboard (HCL Technologies)

- Engineered a centralized dashboard integrating data from **Splunk**, **Dynatrace**, and **AWS CloudWatch** to provide real-time monitoring and alerting for critical enterprise applications, achieving a **30% reduction** in average incident detection time.
- Developed **Python** automation scripts to ingest and process operational logs, enabling proactive identification of system performance bottlenecks and potential failures across **Linux** and **Java Spring Boot** environments.

- Implemented robust logging and audit trail mechanisms compliant with **GDPR** and financial-services standards, ensuring data integrity and traceability for all transaction monitoring workflows.

Automated End-User Support & Diagnostics Tool

- Developed a **Python**-based application integrating **Bash** and **PowerShell** scripts to automate common L1/L2 IT support tasks, including OS diagnostics, network connectivity checks, and software deployment, reducing manual resolution time by **40%** for routine issues.
- Integrated with ticketing systems like **Jira** to automatically log support requests and track resolution progress, enhancing efficiency and providing clear documentation for end-users and IT teams.
- Designed a modular architecture allowing for easy expansion with new diagnostic modules and integration with remote support tools like RDP, improving remote troubleshooting capabilities for a distributed user base.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
