

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and deployed **Java Spring Boot microservices** for backend systems, increasing request throughput by **18%** through performance tuning.
- Automated data ingestion and transformation processes using **Python scripts**, reducing manual data handling time by **40%** and improving data accuracy.
- Managed and maintained production environments for a **payments operations dashboard**, achieving **99.95% uptime** through proactive monitoring and incident response.
- Designed and implemented interactive **Power BI dashboards**, consolidating key performance indicators and enabling stakeholders to access real-time business insights, leading to a **15% improvement** in decision-making speed.
- Supported and integrated enterprise business systems, including **ERP modules**, through **REST APIs** and direct database connections, ensuring seamless data flow and operational continuity.
- Executed **SQL queries** across **PostgreSQL** and **Oracle** databases for data validation and schema updates, supporting critical financial reporting functions with zero data integrity issues.

SKILLS

Backend Development – Java, Spring Boot, Python, REST APIs, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Databases – PostgreSQL, MySQL, Oracle, SQL, Data Warehousing

Business Intelligence – Power BI, Tableau, DAX, Power Query, Data Modelling

Analytics & ML – pandas, NumPy, scikit-learn, R, Statistical Analysis, Machine Learning Fundamentals

Operations & Support – Splunk, Dynatrace, Incident Response, Change Management, UAT Support

Enterprise Systems – ERP Integration, Business Systems Support

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Smart EV Charging Network Management Platform

- Architected a scalable backend system using **Java Spring Boot** and **PostgreSQL** to manage a distributed network of EV charging stations, supporting over **10,000 concurrent connections**.
- Developed **REST APIs** for real-time station status updates, user authentication, and payment processing, facilitating seamless integration with third-party fleet management software.

- Implemented a robust monitoring solution with **AWS CloudWatch** and custom alerting logic, reducing charging station downtime by **22%** and ensuring high availability for critical infrastructure.

Financial Transaction Monitoring Dashboard

- Engineered a comprehensive **payments operations dashboard** using **Python** for data aggregation and **Power BI** for visualization, providing real-time insights into transaction flows.
- Developed automated anomaly detection and alerting mechanisms for failed or delayed payment messages, improving incident response times by **30%** and minimizing financial risk.
- Collaborated with business analysts to define requirements and deliver actionable reporting on reconciliation workflows and operational metrics, supporting regulatory compliance and audit trails.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
