

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **Java Spring Boot** microservices, implementing new REST APIs and resolving critical bugs to enhance system functionality, contributing to a **15% reduction** in reported issues.
- Automated data ingestion and transformation processes using **Python scripting** and SQL, building ETL pipelines that reduced manual data handling time by **40%** for financial reporting.
- Managed production support for enterprise applications, performing root cause analysis on P1/P2 incidents using **Splunk** and **Dynatrace**, and achieving a **99.9%** SLA adherence.
- Executed schema changes and data validation queries across **PostgreSQL** and **MySQL** databases, supporting complex ERP system integrations and ensuring data integrity for business operations.
- Configured and managed **Jenkins** pipelines for CI/CD, automating build, test, and deployment cycles, leading to a **20% acceleration** in release frequency.
- Collaborated with cross-functional teams on a **payments operations dashboard**, monitoring transaction flows and developing operational alerts for failed payments, ensuring regulatory compliance and audit trail integrity.

SKILLS

Backend Development – Java JDK 8, Spring Boot, Spring Security, Hibernate/JPA, Tomcat, RESTful APIs, Microservices, Maven.

Databases – SQL Server, PostgreSQL, MySQL, Oracle, SQL, Database Design, Data Validation, Schema Changes.

DevOps & Cloud – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux Shell Scripting, Cloud Foundry.

Observability & Monitoring – Splunk, Dynatrace, CloudWatch, Alerting.

Automation & Scripting – Python, Shell Scripting, ETL, Data Pipelines.

Frontend Technologies – React, Redux, Typescript.

Design & Architecture – Design Patterns, Distributed Systems, Message Queuing.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Enterprise Payments Reconciliation Engine (HCL Technologies)

- Engineered a high-throughput **Java Spring Boot** reconciliation service to automate the matching of financial transactions across disparate systems, processing over **1 million records daily**.

- Integrated with **SQL Server** and **PostgreSQL** databases to extract and validate transaction data, implementing multi-threading for concurrent processing and reducing reconciliation cycle time by **50%**.
- Developed comprehensive logging and alerting mechanisms using **Splunk**, enabling real-time monitoring of reconciliation status and immediate notification of discrepancies, ensuring **99.95%** data accuracy.

Financial Operations Dashboard Enhancement (HCL Technologies)

- Enhanced a **payments operations dashboard** by developing new REST APIs using **Java Spring Boot** to ingest real-time transaction status, improving visibility for operations teams.
- Automated the generation of daily operational reports using **Python** and SQL queries against a **PostgreSQL** database, reducing manual effort by **30 hours** per month.
- Implemented robust error handling and transaction monitoring workflows, ensuring audit trail integrity and adherence to **GDPR** requirements within the production environment.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
