PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Provided comprehensive technical guidance on **product selection** and **system design** for heating and renewable energy solutions, directly supporting sales team proposals and increasing quote accuracy by **18%**.
- Resolved complex technical queries from customers, installers, and consultants regarding system suitability and application, achieving a **95% first-contact resolution rate** through clear, professional communication.
- Developed and maintained technical support documentation, including system guides and application notes, improving internal team onboarding efficiency by **22%**.
- Reviewed project drawings and specifications to ensure compliance and suitability of proposed heating and renewable energy systems, reducing post-installation discrepancies by **15%**.
- Collaborated with internal departments such as **service**, **commissioning**, and **distribution** to ensure seamless project execution and timely issue resolution.
- Automated the generation of technical specification reports using **Python scripting**, reducing manual effort by **40 hours per month** and enhancing data consistency.

SKILLS

Technical Support – Product Selection, System Design, Technical Guidance, Customer Support, Installation Support, Troubleshooting.

Engineering Domains – Heating Systems, Renewable Energy Systems, Building Services Engineering, Mechanical Engineering Principles.

Software & Tools – Python, SQL, Jira, Confluence, Microsoft Office Suite (Word, Excel, PowerPoint).

Data Analysis & Reporting – Power BI, DAX, Power Query, Data Modelling, Tableau, R, pandas, NumPy.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Backend Development – Java, Spring Boot, REST APIs, PostgreSQL, MySQL, Oracle.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Renewable Energy System Design & Optimization Platform

- Developed a comprehensive internal platform using **Python** and **SQL** to assist the sales team with selecting optimal renewable energy systems, improving system suitability by **25%**.
- Integrated **Power BI** dashboards to visualize system performance data and forecast energy output, enabling data-driven design adjustments for projects with an average value of €100k.

- Automated quotation generation and compliance checks for bespoke heating and renewable energy solutions, reducing proposal turnaround time by **30%** and ensuring adherence to regulatory standards.

HCL Payments Operations Dashboard Enhancement

- Enhanced a **payments operations dashboard** for a financial services client, implementing real-time **transaction monitoring** and alerting for failed payment messages, maintaining **99.9% uptime**.
- Developed automated **Python** scripts for data validation and reconciliation workflows, reducing manual processing errors by **20%** and improving data integrity.
- Managed change control processes for production environment updates using **Jenkins** and **Git**, ensuring seamless deployments and adherence to strict SLA requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
