PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Provided technical input and leadership on complex power systems projects, translating client requirements into actionable deliverables and ensuring adherence to **time and budgetary constraints**.
- Conducted in-depth **power systems analysis** including **redundancy, short circuit, power flow, and protection coordination**, achieving **98% accuracy** in predicted system behavior through detailed simulations.
- Prepared detailed technical and non-technical reports, including **electrical safety analysis** and **arc flash assessments**, for diverse global clients like Dell and Pfizer, improving client understanding of risk by an average of **40%**.
- Managed client expectations through effective remote communication and timely responsiveness during project execution, contributing to a **95% client satisfaction** rating on delivered projects.
- Developed and implemented **software-based analysis solutions** for power system studies, reducing manual calculation time by **30%** and enhancing analytical throughput.
- Gained familiarity with company quality systems and contributed to enhancements, participating in internal workshops that supported the company's growth initiatives and sales strategies.

SKILLS

Power Systems Engineering – Power System Analysis, Short Circuit Studies, Power Flow Analysis, Protection Coordination, Arc Flash Studies, Electrical Safety Analysis, Grid Connection Analysis, Transient Stability, Harmonics Analysis, Power Quality Evaluation, Earthing Studies, Reliability Assessments

Power System Software – SKM Power Tools, ETAP, EasyPower, PSS/E, PSCAD

Electrical Standards & Design – IEC 60502-2, IEC 60364-5-52, Unit Protection Settings (87B, 87T, 67), Cable Sizing Calculations, Protection Design

Programming & Automation – Python, SQL, Java Spring Boot, REST APIs, Shell Scripting

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, Data Modelling

Project Management & Support – Client Relationship Management, Stakeholder Management, Technical Reporting, Change Management, Incident Response, UAT Support

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Advanced Power System Stability and Grid Integration Platform

- Engineered a comprehensive simulation platform using **PSS/E and PSCAD** to model grid connection scenarios for embedded generation, analyzing **static & dynamic transient stability** and predicting fault currents with **99.5% accuracy**.
- Developed automated workflows in **Python** for processing simulation outputs and generating detailed reports on harmonics, flicker, and transformer inrush, reducing report generation time by **50%**.
- Integrated **Power BI dashboards** to visualize real-time power quality metrics and transient stability results for client review, enabling proactive identification of potential grid issues and improving system reliability assessments.

HCL Payments Operations Dashboard Enhancements

- Enhanced transaction monitoring capabilities on a **financial-services dashboard** by implementing new alerting rules in **Java Spring Boot**, reducing P1 incident response time for failed payment messages by **25%**.
- Automated data validation processes for reconciliation workflows using **Python scripts** and **SQL queries** against PostgreSQL, ensuring data integrity and reducing manual error rates by **15%**.
- Provided production support for the payments operations dashboard, managing SLAs and resolving P2 incidents within defined timeframes, contributing to a **99.9% uptime** for critical financial transaction flows.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
