PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Reduced customer charging discrepancies by **22%** through in-depth analysis of meter data against billing systems, resolving root causes via cross-departmental collaboration and technician report auditing.
- Managed non-performing customer accounts, implementing repayment plans and monitoring performance to reduce aged debt by **15%**, escalating to collection agencies when necessary.
- Validated system charging accuracy against ESB and GNI meters, identifying and resolving consumption validation and tariff check issues that impacted **over 500** customer accounts weekly.
- Investigated and resolved root causes of revenue protection exceptions and identified issues, ensuring timely resolution and compliance with company procedures for over **100** cases per month.
- Provided guidance and support to Tier 1 Revenue Protection staff, improving overall team SLA adherence for customer query resolution by **10%** through enhanced troubleshooting techniques.
- Generated and delivered weekly operational reports to management on Revenue Protection activities, detailing key metrics on account performance, discrepancy resolutions, and repayment plan success rates.

SKILLS

Data Analysis & Reporting – Excel, Numerical Analysis, Power BI, Tableau, R, Statistical Analysis, Time-Series Analysis.

Customer Account Management – Repayment Plans, Account Monitoring, Debt Escalation, Customer Engagement, CRM Systems.

Revenue Protection & Fraud Analysis – Charging Accuracy, Consumption Validation, Tariff Checks, Meter Data Comparison, Root Cause Investigation.

Technical Skills – SQL, MS Office Suite, Python Scripting, Java Spring Boot, AWS.

Operations & Compliance – SLA Management, Incident Response, Regulatory Compliance, Change Management, Audit Trails, GDPR Awareness.

Communication & Collaboration – Cross-functional Liaison, Third-Party Engagement, Customer Communication, Presentation Skills, Interpersonal Skills.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Energy Consumption Anomaly Detection System (MSc Project)

- Developed a Python-based system using **pandas** and **scikit-learn** to analyze historical energy consumption data for over **10,000** customer accounts.

- Implemented anomaly detection algorithms to identify irregular consumption patterns, flagging potential fraud or billing errors with **90%** accuracy.
- Created interactive dashboards in **Power BI** to visualize detected anomalies, consumption trends, and tariff validation checks for business stakeholders, facilitating targeted investigations.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Enhanced a payments operations dashboard by implementing real-time transaction monitoring and operational alerting for failed payment messages, improving issue detection by **30%**.
- Automated data validation and reconciliation workflows using **Python** scripts and **SQL** queries across PostgreSQL and Oracle databases, reducing manual effort by **25%**.
- Contributed to production support, incident response, and SLA management for a high-volume financial-services platform, ensuring **99.9%** uptime for critical payment processing operations.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
