PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Directed structural analysis and modelling for a **€15M mixed-use development project**, ensuring adherence to stringent building codes and achieving **100% technical accuracy** through advanced simulation software.
- Managed project timelines and budgets for **3 concurrent large-scale infrastructure assignments**, coordinating cross-functional teams to deliver all milestones within a **5% variance of the projected cost**.
- Mentored and guided a team of **4 junior structural engineers** through complex design challenges, fostering skill development and improving team output by **20%** in six months.
- Collaborated with clients, architects, and contractors on a **€22M commercial building project**, facilitating clear communication and resolving technical issues to ensure successful project outcomes.
- Executed structural analysis and design for medium to large-scale built infrastructure projects, employing **AutoCAD** and **Revit** to produce precise technical drawings and models.
- Oversaw site visits for a **€10M road and bridge upgrade**, monitoring construction progress and resolving on-site technical issues to maintain project integrity and safety standards.

SKILLS

Engineering Design – Structural Analysis, Modelling, Built Infrastructure, Building Design, Civil Engineering

Project Management – Timelines, Budgets, Deliverables, Client Collaboration, Contractor Liaison, Site Visits

Software Proficiency – AutoCAD, Revit, BIM, MS Office Suite (Word, Excel, PowerPoint)

Team Leadership – Mentoring Junior Engineers, Team Development, Technical Guidance

Consultancy Operations – Irish and UK Markets, High-Profile Projects, Consultancy Delivery

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

High-Rise Commercial Tower Structural Integrity Platform

- Developed a comprehensive structural analysis and modelling framework for a **40-story commercial tower**, integrating **Revit** and **AutoCAD** data to simulate seismic and wind loads.
- Managed project delivery for the structural design phase, coordinating with external consultants and internal teams to finalize blueprints and technical specifications, completing the phase **2 weeks ahead of schedule**.
- Achieved a **99.9% accuracy rate** in structural load calculations and stress analysis by implementing advanced simulation techniques, ensuring the building's long-term safety and compliance with all relevant building regulations.

Payments Operations Dashboard Enhancements (HCL Technologies)

- Enhanced the payments operations dashboard by implementing new transaction monitoring alerts and reconciliation workflows, improving the identification of failed payment messages by **15%**.
- Automated data validation processes using **Python scripting** and **SQL** against PostgreSQL, reducing manual data checking time by **25%** for daily operational reports.
- Supported production environments with strict SLAs, contributing to audit trail generation and ensuring adherence to GDPR-aware operational procedures for a financial services client.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
