PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed and enhanced **Azure infrastructure** across multiple environments, ensuring 99.9% availability and resolving complex incidents within defined SLAs.
- Designed and deployed infrastructure as code solutions using **Terraform** and **Azure CLI**, automating resource provisioning and configuration management, reducing deployment times by **40%**.
- Built and maintained robust **CI/CD pipelines** using **Azure DevOps**, enabling seamless integration and deployment of applications, accelerating release cycles by **25%**.
- Implemented and supported **identity services** including **Entra ID** and **MFA**, enhancing cloud security posture and user access control.
- Developed automation scripts in **PowerShell** to streamline operational tasks and improve efficiency of routine maintenance, saving an estimated **10 hours** per week.
- Adhered to **ITIL processes** for incident, problem, and change management, contributing to a structured and compliant operational framework.

SKILLS

Cloud Platform – Azure, Compute, Networking, Identity, Storage, Microsoft 365

Infrastructure as Code – Terraform, Bicep, Azure CLI

Automation & Scripting – PowerShell, Azure CLI

CI/CD – Azure DevOps, GitHub Actions

Operations & Security – Monitoring, Incident Management, Problem Management, Change Management, Cloud Security, ITIL

Identity Management – Entra ID, MFA, Conditional Access

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Automated Azure Resource Management Platform

- Developed a comprehensive **Infrastructure as Code** solution using **Terraform** to manage Azure compute, networking, and storage resources across development, staging, and production environments.
- Integrated **Azure DevOps pipelines** for automated testing and deployment of Terraform modules, reducing manual intervention and ensuring consistent infrastructure configuration, leading to a **30%** decrease in deployment errors.

- Implemented **PowerShell scripting** for post-deployment validation and initial configuration of deployed resources, ensuring adherence to security best practices and compliance requirements.

HCL Financial Services Operations Dashboard Enhancement

- Contributed to the production support and feature development of a **payments operations dashboard**, focusing on transaction monitoring and operational alerting for financial services clients.
- Authored **Python scripts** for data validation and automated reporting, improving the efficiency of reconciliation workflows and reducing manual data processing time by **15%**.
- Managed and analyzed logs using **Splunk** and **Dynatrace** to identify and resolve production incidents, ensuring adherence to strict SLAs and maintaining audit trails for critical operations.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
