PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Developed and deployed **new Java Spring Boot microservices**, contributing to a **15%** increase in application throughput for a financial services client by implementing efficient REST API endpoints.
- Automated data ingestion and transformation processes using **Python scripts** and **SQL**, reducing manual data handling time by **40%** for backend operational reporting.
- Managed and resolved production incidents for enterprise applications, maintaining **99.9% uptime** and adhering to strict SLAs by analyzing logs in **Splunk** and **Dynatrace**.
- Enhanced existing **Java Spring Boot** applications by fixing critical bugs and implementing new features, improving system stability and reducing user-reported issues by **20%**.
- Migrated and managed containerized applications using **Docker** and basic **AWS EC2** deployments, streamlining the deployment pipeline and reducing environment setup time by **25%**.
- Collaborated with cross-functional teams to define requirements and support User Acceptance Testing (UAT) for system enhancements, ensuring successful integration and adoption of new features.

SKILLS

Backend Development – Java, Spring Boot, Node.js, REST APIs, Microservices.

Frontend Development – React, TypeScript.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Databases – PostgreSQL, MySQL, Oracle, SQL.

Monitoring & Observability – Splunk, Dynatrace.

Data Analytics & BI – Power BI, DAX, Tableau, R, Python (pandas, NumPy, scikit-learn).

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Real-Time Transaction Processing Pipeline

- Engineered a high-throughput **Java Spring Boot** microservice to process incoming financial transaction messages, handling over **1 million transactions per hour**.
- Integrated with **PostgreSQL** for persistent storage of transaction states and audit trails, ensuring data integrity and enabling complex reconciliation workflows.
- Developed a comprehensive monitoring dashboard using **AWS CloudWatch** and custom alerting mechanisms to track processing latency and identify failed transactions, achieving a **99.95% success rate**.

Enterprise Business Systems Integration Layer

- Designed and implemented **REST APIs** using **Java Spring Boot** to facilitate seamless data exchange between an ERP system and a proprietary operational platform.
- Managed change control processes for system configuration updates, coordinating UAT cycles and providing post-go-live support to reduce critical system errors by **30%**.
- Authored detailed technical documentation and operational runbooks, improving knowledge transfer and reducing incident resolution time by **15%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
