PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Developed and maintained scalable web applications using **.NET (C#)** and **React**, contributing to a **15%** increase in feature deployment velocity.
- Designed and implemented responsive, user-friendly interfaces with a focus on **UI/UX design principles**, improving user engagement metrics by **20%**.
- Collaborated with cross-functional teams, including product managers and designers, to translate business requirements into technical specifications, ensuring on-time delivery of **95%** of sprint goals.
- Authored clean, maintainable, and well-tested code for new features and system enhancements, reducing bug incidence in production by **30%**.
- Integrated backend services through robust **REST APIs**, facilitating seamless data flow and improving system interoperability by **25%**.
- Participated actively in **code reviews** and agile ceremonies, enhancing code quality and team knowledge sharing, leading to a **10%** reduction in code merge conflicts.

SKILLS

Frontend Development – React, UI/UX Design Principles, Responsive Design, HTML, CSS

Backend Development – .NET, C#, REST APIs, Microservices Architecture

Cloud & DevOps – Microsoft Azure, Azure DevOps, CI/CD Pipelines, Git, Docker

Databases – SQL, PostgreSQL, MySQL, Oracle

Methodologies – Agile, Scrum, Code Reviews

Tools & Platforms – Jira, Confluence, Splunk, Dynatrace

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Enterprise Customer Portal with Integrated Analytics Dashboard

- Engineered a full-stack customer portal using **React** for the frontend and **.NET (C#)** for the backend, serving over **50,000** active users.
- Developed a comprehensive **REST API** layer to facilitate data exchange between the frontend portal and multiple backend microservices, improving data retrieval times by **40%**.
- Integrated an interactive analytics dashboard using **Power BI**, embedded within the portal, providing users with real-time insights into their service usage and performance metrics, leading to a **22%** increase in self-service

problem resolution.

- Managed application deployments and infrastructure configurations on **Microsoft Azure** using **Azure DevOps** CI/CD pipelines, achieving a deployment frequency of **3 times per week**.
- Implemented unit and integration tests with **90%** code coverage, significantly reducing post-deployment defects and enhancing application stability.

Financial Services Transaction Monitoring Dashboard Enhancement

- Enhanced a payments operations dashboard by developing new Python scripts for automated data ingestion and validation of transaction messages, processing over **1 million records daily**.
- Refactored SQL queries against PostgreSQL and Oracle databases to optimize transaction reconciliation workflows, reducing report generation times by **35%**.
- Implemented real-time alerting mechanisms using Splunk, reducing the Mean Time To Detect (MTTD) for critical payment processing failures by **50%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
