PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Resolved escalated Level Two technical queries for a diverse client base, reducing average resolution time by **18%** through methodical troubleshooting of hardware, software, and network issues.
- Automated end-user device configuration and software patching processes using Python and Jenkins, decreasing deployment time for new laptops by **40%** and ensuring consistent builds.
- Managed the stability and performance of assigned client networks by conducting regular system checks and responding to automated alerts, maintaining **99.8%** uptime for critical services.
- Contributed to the development of an internal knowledge base by documenting solutions and best practices for common IT problems, facilitating faster onboarding for new team members.
- Supported onboarding projects and system deployments by collaborating with senior staff and performing data migrations, ensuring timely delivery of project milestones for key clients.
- Owned client incidents from initial report to resolution, including creating and managing cases with third-party providers, leading to a **15%** improvement in cross-vendor issue resolution efficiency.

SKILLS

Support & Incident Management – Level Two Support, Incident Response, SLA Management, Root Cause Analysis, Problem Management, Change Management

Operating Systems & Networking – Linux, Windows Server, TCP/IP, DNS, DHCP, VPN, Network Monitoring

Cloud & Virtualization – AWS (EC2, S3, Lambda, CloudWatch), Docker, VMware (basic understanding)

Scripting & Automation – Python, Bash Scripting, Jenkins, Git, CI/CD

Databases & Data Handling – SQL (PostgreSQL, MySQL, Oracle), Data Validation, ETL Concepts

Hardware & Software Deployment – End-User Device Configuration, Software Installation, Patch Management, Printer Management

Client & Stakeholder Communication – Account Reviews, Requirements Gathering, IT Policy Guidance, Process Improvement Recommendations

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Unified Client IT Environment Monitoring Platform (HCL Technologies)

- Developed a centralized dashboard in **Power BI** to aggregate and visualize real-time operational metrics from diverse client IT environments, including server health, network traffic, and application uptime.

- Implemented automated data collection pipelines using **Python** and **SQL** against PostgreSQL and Oracle databases, processing over 1 million log entries daily to identify system anomalies and performance bottlenecks.
- Configured and maintained monitoring alerts using **Splunk** and **AWS CloudWatch**, enabling proactive incident response and reducing critical system downtime by **22%** across 50+ managed client sites.

Automated IT Asset & Configuration Management System

- Engineered a Python-based solution to inventory and track IT assets and configurations across multiple client networks, integrating with existing helpdesk ticketing systems via REST APIs.
- Built custom scripts to automate the detection of configuration drift and unauthorized software installations on Linux and Windows endpoints, improving compliance adherence by **30%**.
- Generated regular reports on asset lifecycle, software compliance, and system vulnerabilities for client account reviews, enhancing visibility and informing strategic IT planning.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
