PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed and resolved over 500 P1/P2 incidents for enterprise applications within strict SLAs, reducing average resolution time by **15%** through proactive monitoring with **Splunk** and **Dynatrace**.
- Automated critical system processes and data pipelines using **Python scripting**, decreasing manual intervention by **40%** and improving data accuracy for scheduled reporting.
- Developed and maintained **REST API** features for Java Spring Boot services, supporting new business functionalities and resolving **200+** defects during the Sep 2021 – Jan 2025 period.
- Supported and integrated with **ERP** and core business systems, coordinating change-control management and UAT for **5+** system configuration updates, ensuring smooth post-go-live operations.
- Built and published interactive **Power BI** dashboards for business stakeholders, consolidating key performance indicators and reducing data retrieval times by **30%** through refined data models and DAX measures.
- Collaborated with third-party vendors and business users to translate technical issues into clear, non-technical language, acting as a primary liaison to ensure timely resolution of **100+** support tickets.

SKILLS

Application Support – Incident Management, Service Request Queues, SLA Tracking, Root Cause Analysis, System Documentation

Database Management – **SQL Developer**, PostgreSQL, MySQL, Oracle, Database Tools, Connectivity Troubleshooting

Cloud & Infrastructure – **Azure Virtual Desktop**, Citrix, AWS (EC2, S3, Lambda, CloudWatch), Linux, Shell Scripting, Docker

Development & Automation – **Python**, Java Spring Boot, REST APIs, Jenkins Pipelines, Git, Power Automate

Business Systems – **ERP Support**, Dispatch Systems, Change Control Management, User Acceptance Testing (UAT)

Reporting & Analytics – **Power BI**, KPI Dashboards, Data Modelling, DAX, Tableau, R, Data Visualisation

Core IT Skills – Networking Fundamentals, Hardware Support, Asset Tracking, Troubleshooting (Applications, Desktops, Printers, User Access)

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

CRH Group Unified Reporting Platform (Power BI)

- Developed a centralized **Power BI** platform to consolidate financial and operational KPIs across multiple CRH Group companies (Roadstone, Northstone), integrating data from disparate ERP and dispatch systems.
- Designed and implemented robust data models and **DAX measures**, enabling drill-down analysis and reducing report generation time by an average of **45%** for executive stakeholders.
- Automated data refresh schedules using **Power Query** and scheduled jobs, ensuring timely delivery of critical business insights and supporting **SOX** compliance through auditable data flows.

Financial Services Transaction Monitoring Dashboard

- Engineered a real-time transaction monitoring dashboard for a financial services client, providing operational visibility into payment message flows and highlighting failures.
- Implemented automated alerting mechanisms using **Python** and integrated with **Splunk** for log analysis, reducing incident response times for critical payment issues by **25%**.
- Supported reconciliation workflows and ensured adherence to GDPR awareness and audit trail requirements within the production environment.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
