PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Analyzed and validated extensive datasets using **web-based research** and processing applications, resolving complex information issues to enhance data quality by **30%**.
- Executed root cause analysis on identified issues within business applications, escalating critical findings to appropriate teams and reducing issue resolution time by **15%**.
- Developed and implemented data analysis strategies to identify high-level data trends, translating findings into actionable recommendations that improved decision-making accuracy by **20%**.
- Performed software usability testing on new internal tools, providing detailed feedback that directly influenced the refinement of user interfaces and functionality.
- Managed and processed business applications efficiently, ensuring data integrity and adherence to operational standards across large datasets.
- Collaborated with cross-functional teams to support business objectives, contributing to projects that enhanced data processing workflows and reporting accuracy.

SKILLS

Data Analysis & Research – Web Research, Data Validation, Trend Analysis, Root Cause Analysis, Usability Testing, Spreadsheet Software

Technical Skills – SQL, Python, Java, Spring Boot, AWS, Linux

Business Systems – ERP Systems Support, Business Applications Processing, Change Management, UAT Coordination

Data Visualization & BI – Power BI, Tableau, DAX, Power Query, Data Modelling

Databases & Warehousing – PostgreSQL, MySQL, Oracle, Data Warehousing, ETL

Tools & Methodologies – Jira, Confluence, Jenkins, Git, Agile/Scrum

Communication – English Fluency, Technical Documentation, Stakeholder Reporting

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Customer Insights & Trend Analysis Platform (MSc Data Analytics Project)

- Developed an interactive dashboard in **Power BI** to visualize customer behavior across multiple social media platforms, integrating data from various APIs.
- Applied **DAX** measures and complex data modelling techniques to identify key engagement patterns and segment customer demographics, leading to a **25%** improvement in targeted marketing campaign

effectiveness.

- Utilized **Python** with pandas and NumPy for data cleaning and pre-processing of large unstructured datasets, achieving a **99%** data accuracy rate before analysis.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Supported a critical payments operations dashboard for a financial-services client, focusing on real-time transaction monitoring and operational alerting for failed messages.
- Authored **SQL** queries across PostgreSQL and Oracle databases to validate transaction data and assist in reconciliation workflows, ensuring a **99.95%** data consistency.
- Responded to P1/P2 incidents, performing log analysis using **Splunk** and contributing to SLA management for the financial-services platform.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
