

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Developed new features and resolved bugs in Java Spring Boot microservices, enhancing system functionality by **15%** and improving API response times by **20%**.
- Automated data extraction and transformation processes using Python scripting, reducing manual effort for reporting by **40 hours** per month and improving data accuracy.
- Managed and monitored production enterprise applications across Linux and AWS environments using **Splunk** and **Dynatrace**, achieving **99.95%** uptime and resolving critical incidents within SLA targets.
- Designed and implemented database schema changes and complex SQL queries in **PostgreSQL** and **MySQL** to support new application features, ensuring data integrity for over **1 million** daily transactions.
- Supported cross-functional teams in UAT and change-control management for enterprise business systems, facilitating smooth deployments and reducing post-go-live issues by **25%**.
- Built interactive dashboards and data visualizations in **Power BI**, translating complex datasets into actionable insights for business stakeholders and improving decision-making efficiency.

SKILLS

Backend Development – Java, Spring Boot, Python, REST APIs, Flask, FastAPI, Microservices

Frontend Development – React, Angular, JavaScript, HTML, CSS

Databases – PostgreSQL, MySQL, Oracle, SQL, Data Warehousing

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn

Enterprise Systems – ERP Integration, Change Management, Production Support, Incident Response

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Legal Content Management Platform (Propylon/RWS)

- Engineered backend services using **Python** and **Django** to manage and version complex legal documents, processing over **50,000** documents weekly.
- Developed REST APIs for seamless integration with frontend applications, enabling efficient data retrieval and updates with an average response time of **150ms**.
- Implemented robust data validation and transformation logic using **SQL** with **PostgreSQL**, ensuring data accuracy and compliance with regulatory standards.

- Containerized application components with **Docker** for consistent deployment across development and production environments.

Financial Transaction Monitoring Dashboard (HCL Technologies)

- Developed and maintained a **Java Spring Boot**-based application for real-time monitoring of financial transaction flows, improving visibility into payment processing by **30%**.
- Automated alert generation for failed or delayed transactions using **Python** scripting, reducing manual intervention by **60%** and ensuring timely issue resolution.
- Integrated with operational databases (**Oracle, MySQL**) to extract and display critical transaction data, supporting reconciliation workflows and audit trail requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
