

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Developed and maintained **Python**-based automation scripts, reducing manual data processing time by **40%** through efficient ETL pipelines and scheduled reporting.
- Enhanced **Java Spring Boot** microservices by implementing new features and resolving complex bugs, improving overall application stability and user experience for financial-services clients.
- Managed production support for enterprise applications, achieving **99.9%** uptime and resolving P1/P2 incidents within SLA targets by analyzing logs in **Splunk** and **Dynatrace**.
- Contributed to the design and implementation of a **Python** web framework application, integrating with **PostgreSQL** databases and exposing functionality via **REST APIs**.
- Supported enterprise business systems and ERP modules through meticulous **change-control management** and cross-system integration via **REST APIs**, ensuring seamless data flows.
- Constructed interactive **Power BI** dashboards and developed **DAX** measures to visualize key performance indicators, enabling stakeholders to make data-informed decisions with **15%** faster report generation.

SKILLS

Backend Development – Python, Java, Spring Boot, REST APIs, Flask, FastAPI, Node.js, NestJS

Databases – PostgreSQL, MySQL, Oracle, SQL, Data Warehousing

Frontend Development – React, Angular

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Git, Jenkins, CI/CD

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn, Statistical Analysis

System Support & Monitoring – Linux, Splunk, Dynatrace, Incident Response, Change Management

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Legal Content Workflow Automation Platform

- Designed and implemented a **Python**-based backend service using **Django**, handling complex **XML** processing and transformation for legal document management.
- Integrated with a **PostgreSQL** database to store and retrieve legislation metadata, supporting efficient searching and version control for a large corpus of legal content.

- Developed **REST APIs** to expose content management functionalities, enabling seamless integration with frontend applications and facilitating automated workflow execution, reducing manual processing by **30%**.

Financial Services Transaction Monitoring Dashboard

- Engineered a **Java Spring Boot** application to ingest and process high-volume transaction messages, enabling real-time monitoring and alerting for payment operations.
- Developed **SQL** queries across **PostgreSQL** and **MySQL** for data validation and reconciliation workflows, ensuring data integrity and compliance with audit trail requirements.
- Deployed and managed the application on **AWS EC2** instances, utilizing **Jenkins** for CI/CD pipelines and **Splunk** for log analysis and performance monitoring to maintain **99.95%** availability.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
