PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Architected and implemented overall UI architecture for multiple large workflow components, integrating **TypeScript** and **React** to enhance user experience for a legal content management platform.
- Developed complex UI components across individual workflow applications using **React** and **Redux**, ensuring seamless data flow and interactive user interfaces for Propylon's core product.
- Mentored and provided technical guidance to junior engineers on best-practice **TypeScript/React** development patterns and idiomatic library usage, improving team code quality by **15%**.
- Implemented test-driven development for UI components, achieving a **95%** unit test coverage and reducing post-deployment defects by **20%** for legislative workflow management tools.
- Integrated UI applications with backend functionality exposed via **REST** APIs, enabling efficient data retrieval and manipulation for complex regulatory content workflows.
- Contributed to the design and implementation of UI components within a **Docker** containerized environment, streamlining development and deployment processes.

SKILLS

Frontend Development – TypeScript, React, Redux, UI Architecture, UI Design Systems, JavaScript, MVC Frameworks

Backend Integration – REST APIs, GraphQL, RPC

DevOps & Tools – Docker, Jenkins, Git, Jira, Confluence

Programming Languages – Python, Java, SQL

Databases – PostgreSQL, MySQL, Oracle

Data Analytics & BI – Power BI, Tableau, DAX, Power Query

Cloud & Infrastructure – AWS, EC2, S3, Lambda, CloudWatch

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Propylon LWB 360 Legislative Workflow Management System (HCL Technologies)

- Designed and developed a scalable UI architecture using **TypeScript** and **React** for the next generation of legislative workflow management tools, supporting complex legal content processing.
- Implemented robust UI components with **Redux** for state management and integrated with **RESTful** services to expose core product functionality, enhancing user interaction and data handling efficiency.

- Adhered to test-driven development principles, achieving high test coverage and participating in code reviews to ensure code quality and maintainability for a critical enterprise product.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Developed and maintained a **Java Spring Boot**-based payments operations dashboard, focusing on transaction flow monitoring and operational alerting for financial services clients.
- Automated data validation and reporting tasks using **Python** scripts, improving data accuracy and reducing manual effort by **30%** within the production environment.
- Managed database interactions with **PostgreSQL**, executing ad-hoc queries and schema changes to support evolving business requirements for transaction reconciliation workflows.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
