## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India** **09/2021 – 01/2025 (3.5 Years)**

---

- Managed the procurement of critical aircraft parts, ensuring availability for line and heavy maintenance operations and reducing part acquisition lead times by **15%**.
- Monitored repair facilities and vendor performance, ensuring adherence to operational schedules and improving repair turnaround time by **10%** through proactive vendor liaison.
- Supported Base Maintenance by expediting repair processes and ensuring timely availability of serviced parts, contributing to a **5%** increase in aircraft operational readiness.
- Liaised with Vendors on technical and commercial issues for aircraft parts and systems, negotiating terms that resulted in an average cost saving of **8%** on key components.
- Assisted in managing modification programs by coordinating the timely delivery of spare parts and tooling, supporting the successful integration of **3 new aircraft modifications**.
- Controlled repair order pricing and quote approvals, implementing a streamlined review process that accelerated quote finalization by **20%**.

## SKILLS

**Supply Chain & Logistics** – Procurement, Repair Management, Warranty Control, Vendor Liaison, Parts & Tooling Support, Freight Arrangement.

**Aircraft Maintenance Support** – Line Maintenance, Heavy Maintenance, Base Maintenance Support, Modification Programs, Maintenance Control Operation Support.

**Business & Operations** – Cost Control, Multitasking, Organization, Attention to Detail, Initiative, Negotiation, Computer Literacy (Word, Excel).

**Engineering & Technical Services** – Technical Liaisons, Engineering Support, Purchasing Matters, Warranty Matters.

**Data & Reporting** – Data Analysis, Operational Reporting, Excel Data Manipulation, Cost Analysis.

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin** **02/2026**

---

**BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India** **01/2021**

---

## PROJECTS

### **Aircraft Parts & Repair Optimization Platform (HCL Technologies)**

- Developed a Python-based application to track and manage the repair lifecycle of critical aircraft components, integrating with vendor portals to automate status updates and reduce manual tracking effort by **40%**.
- Implemented automated alerts for upcoming warranty expirations and repair deadlines, proactively flagging potential cost overruns and ensuring timely processing, which contributed to a **12%** reduction in

out-of-warranty repair costs.

- Designed and built interactive dashboards using **Power BI** to visualize key performance indicators for repair facilities and parts inventory, enabling management to identify bottlenecks and optimize stock levels, leading to a **7%** decrease in holding costs.

#### **Financial Services Operations Dashboard Enhancement (HCL Technologies)**

- Enhanced a Java Spring Boot-based payments operations dashboard with new transaction monitoring features, improving the real-time visibility of payment message flows for financial operations teams.
- Automated data validation checks using Python scripts, reducing the time spent on manual data reconciliation by **30%** and improving data accuracy within the dashboard.
- Collaborated with business analysts to refine operational alerting logic for failed transactions, decreasing false positives by **18%** and improving incident response efficiency.

### **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
