

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **Java Spring Boot REST APIs** for enterprise applications, improving data retrieval efficiency by **15%** and supporting new feature rollouts.
- Automated complex data processing and reporting tasks using **Python scripting**, reducing manual effort by **20 hours per week** and enhancing data pipeline reliability.
- Managed production incidents and SLA adherence for a **financial-services operations dashboard**, resolving P1/P2 issues within defined response times and maintaining **99.9% uptime**.
- Optimized **SQL queries** across PostgreSQL and Oracle databases for a banking client's ERP system, accelerating report generation by **30%** and ensuring data integrity.
- Designed and implemented interactive **Power BI dashboards** and DAX measures to visualize key performance indicators for business stakeholders, enabling data-informed decision-making and improving strategic insights by **25%**.
- Collaborated in cross-functional teams to support enterprise business systems, coordinating change-control management and UAT for system configuration updates, leading to a **10% reduction** in post-go-live defects.

SKILLS

Programming Languages – Java, Python, SQL, R.

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Databases – PostgreSQL, MySQL, Oracle.

BI & Data Visualization – Power BI, Tableau, DAX, Power Query.

Monitoring & Observability – Splunk, Dynatrace.

Enterprise Systems – ERP Integration Support, Change Management.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Salesforce CRM Integration & Automation Platform

- Engineered a comprehensive platform integrating **Salesforce CRM** with internal Java-based enterprise systems using **REST APIs**, enabling seamless data synchronization and reducing manual data entry by **40%**.
- Developed automated workflows in **Python** to manage lead enrichment, customer data updates, and sales activity logging within Salesforce, decreasing processing time for new leads by **50%**.

- Built real-time operational dashboards in **Power BI** to monitor sales pipeline health, forecast accuracy, and team performance, providing actionable insights that contributed to a **12% increase** in quarterly sales targets.

Real-time Payments Transaction Monitoring System

- Developed a **Java Spring Boot** microservice to process and monitor high-volume financial transaction messages, achieving a processing throughput of **1,000 transactions per second**.
- Implemented alert mechanisms using **Splunk** for anomaly detection in transaction flows, reducing the time to identify and resolve critical payment processing errors by **35%**.
- Designed and maintained database schemas in **PostgreSQL** to store transaction details and audit trails, supporting regulatory compliance and reconciliation workflows with **99.99% data accuracy**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
