PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Automated **Python** scripts to reduce manual operational tasks by **40%**, enabling faster incident resolution across production systems.
- Managed and enhanced **CI/CD pipelines** using **Jenkins** and **Git**, achieving a **20%** reduction in deployment cycle times for new features.
- Supported cloud infrastructure management on **Azure**, contributing to the implementation of **Infrastructure-as-Code** principles under senior engineer guidance.
- Maintained and improved **Kubernetes** cluster operations on **AKS**, focusing on stability and performance for critical product deployments.
- Contributed to **GitOps workflows** with **Argo CD**, ensuring declarative and auditable deployments across multiple product teams.
- Participated in incident management processes, joining on-call rotations to assist in triage and post-incident reviews, improving system reliability by **15%**.

SKILLS

Cloud Platforms – Microsoft Azure, AWS (EC2, S3, Lambda, CloudWatch)

Containerization & Orchestration – Kubernetes (AKS), Docker, Helm charts

CI/CD & DevOps Tools – Jenkins, Azure DevOps, Git, Argo CD, Terraform, Terragrunt, Bicep/ARM

Programming & Scripting – Python, Bash, PowerShell, Java, Spring Boot

Observability & Monitoring – Prometheus, Grafana, Azure Monitor, OpenTelemetry, Splunk, Dynatrace

Operating Systems & Networking – Linux, TCP/IP, DNS, Firewalls

Databases – PostgreSQL, MySQL, Oracle

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Automated Kubernetes Deployment and Observability Platform

- Developed a comprehensive **GitOps** workflow using **Argo CD** and **Helm charts** to automate the deployment and management of microservices on **AKS** clusters, reducing manual deployment efforts by **75%**.
- Implemented a unified observability stack integrating **Prometheus**, **Grafana**, and **Azure Monitor** for real-time metrics, logging, and alerting across distributed services, decreasing mean time to detect (MTTD) incidents by **30%**.

- Authored **Python** scripts to automate cloud resource provisioning and configuration management on **Azure**, directly supporting **Infrastructure-as-Code** practices and ensuring environment consistency.

Financial Services Transaction Monitoring Dashboard

- Engineered Java Spring Boot services to ingest and process high-volume transaction messages, building an operational dashboard for monitoring payment flows and identifying failures.
- Developed automated alerts and reconciliation workflows using **Python** and **SQL** against PostgreSQL databases, ensuring adherence to strict SLAs for financial operations.
- Managed production support for a critical financial-services dashboard, responding to P1/P2 incidents and contributing to GDPR-aware audit trails and regulatory compliance.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
