PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed, developed, and maintained **Power BI dashboards**, enhancing data accessibility for over 50 business units and reducing ad-hoc reporting requests by **40%**.
- Managed and enhanced a **centralised data lake** architecture, improving data ingestion efficiency by **25%** and supporting complex analytical queries.
- Served as the **Subject Matter Expert (SME)** for data-related initiatives, guiding cross-functional teams on data governance and architecture strategy.
- Developed **Python scripts** for data pipeline automation and ETL processes, reducing manual data processing time by **60%**.
- Executed complex **SQL queries** across PostgreSQL and Oracle databases for data validation and schema analysis, ensuring data integrity for critical reports.
- Collaborated with business stakeholders to gather requirements and translate them into actionable technical specifications for dashboard development and data architecture enhancements.

SKILLS

Data Analytics & BI – Power BI, DAX, Power Query, Tableau, Data Modelling, Business Intelligence, MI Reporting

Data Architecture & Lakes – Data Lake Management, Data Architecture Strategy, ETL, Data Pipelines

Programming & Scripting – Python, Java, Spring Boot, SQL

Databases – PostgreSQL, Oracle, MySQL

Cloud & Operations – AWS (EC2, S3, Lambda, CloudWatch), Linux, Docker

Development Tools & Practices – Git, Jenkins, Jira, Confluence, Agile/Scrum

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Executive KPI Dashboard Consolidation Platform (Power BI)

- Architected and implemented a unified **Power BI** reporting solution, integrating data from 12 disparate business units into a single, executive-facing dashboard.
- Developed complex **DAX measures** and optimized **Power Query** transformations to ensure data accuracy and performance, reducing report load times by **35%**.

- Championed data governance principles by establishing standardized data models and reporting metrics, leading to a **50%** reduction in data interpretation discrepancies across leadership.

Financial Services Transaction Monitoring Dashboard

- Engineered a real-time **payments operations dashboard** for a financial services client, providing critical visibility into transaction flows and operational alerts.
- Implemented **Java Spring Boot** services and **Python** automation scripts to process and monitor high-volume financial transaction messages, achieving **99.95%** uptime.
- Developed robust data validation and reconciliation workflows, reducing manual intervention for payment exceptions by **45%** and ensuring regulatory compliance.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
