PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Translated business needs into 50+ actionable technical requirements for engineering teams, resulting in a **15% reduction in development rework** by ensuring clarity on scope and acceptance criteria.
- Collaborated with Data Engineers to refine requirements and define test cases for new features, contributing to a **20% improvement in feature deployment success rate** through structured validation processes.
- Guided features from initial concept through development and rollout, maintaining visibility and control over system health using **Git, Jenkins, and monitoring dashboards**, ensuring 99.9% uptime for critical services.
- Managed the transition of services from "working" to "reliable at scale" by implementing enhanced monitoring and automated alerting, reducing critical incident response times by **30%**.
- Developed and maintained Python scripts for data pipelines and ETL processes, improving data accuracy and reducing manual processing time for operational reporting by **40%**.
- Supported and integrated with enterprise business systems including ERP modules, managing change-control processes and coordinating User Acceptance Testing (UAT) for system configuration updates.

SKILLS

Product Management – Technical Requirements, Agile Methodologies, Feature Lifecycle Management, Stakeholder Collaboration, TDD, ETL, Monitoring Tools, Ownership, Pragmatic Solutions.

Software Engineering – Java Spring Boot, Python, SQL (PostgreSQL, MySQL, Oracle), REST APIs, Microservices Exposure, Docker, Linux, Shell Scripting.

DevOps & CI/CD – Git, Jenkins, CloudWatch, AWS (EC2, S3, Lambda), Containerization Basics.

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, R, pandas, NumPy, scikit-learn.

Operational Support – Production Support, Incident Response, SLA Management, Splunk, Dynatrace, Log Analysis, Change Management, Audit Trails.

Business Systems – ERP Support, Enterprise Systems Integration, UAT Coordination, GDPR Awareness.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Scalable Data Service Backbone (HCL Technologies)

- Architected and implemented a resilient data ingestion pipeline using **Python** and **PostgreSQL**, processing over 1 million transaction records daily with **99.95% data integrity**.

- Integrated real-time monitoring and alerting using **Splunk** and custom **AWS CloudWatch** dashboards, reducing mean time to detect (MTTD) critical data flow anomalies by **45%**.
- Developed automated ETL processes and data validation scripts in **Python**, ensuring timely and accurate data availability for downstream analytics and operational reporting, achieving a **20% reduction in data latency**.

Financial Operations Dashboard Enhancement

- Enhanced a payments operations dashboard by developing new features for transaction monitoring and operational alerting, directly supporting a financial-services client's compliance and operational efficiency goals.
- Implemented robust error handling and logging mechanisms across Java Spring Boot services, improving the audit trail capabilities and providing clear visibility into payment message processing workflows.
- Collaborated with business analysts to define requirements for reconciliation workflows, contributing to a **10% improvement in reconciliation accuracy** and reducing manual intervention.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
