PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed core Java backend services and RESTful APIs for a greenfield cloud-native banking platform, enhancing transaction processing capabilities by **30%**.
- Implemented robust automated testing strategies and CI/CD pipelines using **Jenkins** and **Git**, reducing deployment failures by **22%** and accelerating release cycles.
- Managed production support for a financial-services dashboard, resolving P1/P2 incidents within strict SLAs and performing root cause analysis on transaction monitoring failures, improving system uptime to **99.95%**.
- Designed and deployed microservices on **AWS** (EC2, Lambda) using **Docker**, contributing to a scalable and resilient cloud-native architecture for payments operations.
- Refactored and optimized SQL queries across **PostgreSQL** and **Oracle** databases, decreasing report generation times by an average of **35%** for enterprise business systems.
- Collaborated with cross-functional teams on enterprise business system integrations, delivering features via REST APIs and ensuring seamless data flows across interconnected platforms, supporting **change-control management**.

SKILLS

Backend Development – Java, Spring Boot, RESTful APIs, Microservices, Python, Fast API, Flask.

Frontend Development – React Native, React, Angular.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD, Linux.

Databases – PostgreSQL, MySQL, Oracle, NoSQL (DynamoDB concepts), SQL.

Observability & Support – Splunk, Dynatrace, CloudWatch, Incident Response, Production Support.

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, Pandas, NumPy, Scikit-learn.

Methodologies & Compliance – Agile, Scrum, GDPR Awareness, Regulatory Environments, OWASP Fundamentals.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Solance Banking Platform Core Services

- Engineered critical Java microservices and **RESTful APIs** for a greenfield cloud-native banking platform on **AWS**, processing 100,000+ transactions daily with **99.99%** uptime.
- Developed comprehensive automated test suites (unit, integration) and integrated them into **Jenkins CI/CD pipelines**, ensuring reliable deployments and reducing regression defects by **40%**.

- Implemented observability using **CloudWatch logs and metrics**, enabling proactive issue detection and rapid incident response for payment processing flows, maintaining strict SLAs.
- Integrated with **PostgreSQL** for core data persistence, applying best practices for schema design and query optimization to support high-throughput financial operations.

HCL Financial Services Payments Dashboard Enhancements

- Enhanced transaction monitoring features for a financial-services operations dashboard, improving the visibility of failed payment messages and reducing manual reconciliation efforts by **25%**.
- Automated data validation and reporting processes using **Python scripting**, generating daily operational summaries and reducing manual data extraction time by **3 hours**.
- Supported production environments with strict **audit trail** requirements and **GDPR awareness**, collaborating with business analysts to triage and resolve issues impacting payment workflows.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
