PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **automated test scripts** using **Java** and **Selenium WebDriver**, achieving **90% test coverage** for new feature releases on AEM-based web applications.
- Executed comprehensive **functional, regression, integration, performance, and security testing** for AEM sites, identifying and resolving over **50 critical defects** prior to production deployment.
- Configured and managed **CI/CD pipelines** with **Jenkins** and **Maven**, enabling automated test execution and reducing release cycle time by **15%**.
- Collaborated with architects and developers to review technical designs and AEM components, ensuring testability and contributing to **high-quality, low-defect releases**.
- Mentored junior QA engineers through **code reviews and knowledge sharing** sessions, enhancing team's overall automation efficiency and adherence to quality standards.
- Performed **end-to-end QA of web applications**, including **REST API testing** with Postman and **XML/XPath validation**, ensuring seamless integration and data integrity.

SKILLS

Testing Frameworks – Java, Selenium WebDriver, Cucumber, Applitools

CI/CD & DevOps – Jenkins, Maven, Git, Docker

Web Technologies – AEM, REST APIs, XML, XPath, HTML, CSS, JavaScript, AJAX

Testing Methodologies – Functional Testing, Regression Testing, Integration Testing, Performance Testing, Security Testing, Test Automation

Tools – JIRA, Confluence, Postman

Cloud & Backend – AWS, Linux, Spring Boot, Python

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

PlayStation.com AEM Quality Assurance Automation Platform

- Designed and implemented an end-to-end **QA automation framework** for **AEM-based web applications**, integrating **Java, Selenium WebDriver, and Cucumber** to validate core functionalities.
- Developed automated test suites for **REST API validation** and **AEM component testing**, contributing to a **30% reduction in manual testing effort** and ensuring data consistency across integrated services.

- Configured **Jenkins pipelines** for automated test execution triggered by code commits, significantly improving the speed and reliability of the **CI/CD process** and enabling faster feedback loops.

Financial Services Transaction Monitoring Dashboard Enhancement

- Enhanced a **payments operations dashboard** by developing Python scripts for automated data validation and reconciliation workflows, improving data accuracy by **98%**.
- Implemented real-time monitoring and alerting mechanisms using **Splunk** for critical transaction flows, reducing P1 incident response time by **20%**.
- Contributed to feature development for the dashboard using **Java Spring Boot**, delivering new functionalities that supported enhanced **transaction monitoring** and operational visibility.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
