

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Developed and deployed **Python scripts** to automate data ingestion from new audio sources, contributing to a **15% increase** in dataset volume for AI model training.
- Managed and extended **GCP cloud infrastructure** for a petabyte-scale data ingestion pipeline, utilizing **Terraform** for infrastructure-as-code deployment and achieving **99.95% uptime**.
- Engineered **data processing workflows** for large-scale audio data acquisition, collaborating with AI Scientists to improve data quality and reduce processing costs by **20%**.
- Integrated diverse audio data sources into a unified ingestion pipeline, supporting the development of next-generation AI models and enhancing data availability for **50 million+ users**.
- Implemented **Docker containerization** for data pipeline components, ensuring consistent execution across development and production GCP environments and reducing deployment failures by **30%**.
- Automated data acquisition roadmap planning and execution in collaboration with AI Team leadership, aligning data collection strategies with Speechify's product development cycles and enterprise goals.

SKILLS

Cloud & Infrastructure – GCP, Terraform, Docker, AWS (EC2, S3, Lambda, CloudWatch)

Programming & Scripting – Python, Bash, Java, Spring Boot, SQL

Data Engineering – Data Pipelines, ETL, Large-Scale Data Processing, Data Acquisition, Data Warehousing

AI & Machine Learning Concepts – Model Training Data, Dataset Development, Statistical Analysis, Machine Learning Fundamentals

Development Tools – Git, Jenkins, Jira, Confluence, Linux

Data Visualization & BI – Power BI, Tableau, DAX, Power Query

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Petabyte-Scale Audio Data Acquisition Platform (Speechify)

- Designed and implemented a scalable data acquisition platform on **GCP**, ingesting diverse audio data sources to support AI model training, processing **over 1 PB** of data monthly.
- Developed robust **Python and Bash scripts** for web crawling and data extraction from new audio content providers, increasing raw data acquisition throughput by **40%**.

- Managed cloud infrastructure using **Terraform** and containerized services with **Docker**, ensuring high availability and cost-efficiency for continuous data ingestion operations.

Financial Transaction Monitoring Dashboard (HCL Technologies)

- Built and maintained a **payments operations dashboard**, enabling real-time transaction monitoring and operational alerting for a financial-services client, reducing critical incident detection time by **25%**.
- Developed **Java Spring Boot** microservices for processing inbound financial messages and implemented **SQL** queries against **PostgreSQL** for data validation and reconciliation workflows.
- Ensured production environment stability with **Splunk** and **Dynatrace** monitoring, adhering to strict SLAs and supporting regulatory compliance through comprehensive audit trails.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
