PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Developed and executed comprehensive test plans and test cases to validate **.NET RESTful services** and an **Angular portal**, ensuring alignment with functional requirements and reducing critical defects by **28%**.
- Executed smoke tests on multi-tier application deployments hosted on **Windows Server / IIS**, confirming environment readiness for QA cycles and decreasing environment setup time by **15%**.
- Managed defect lifecycle within **Jira**, meticulously documenting issues, tracking resolutions, and re-testing fixes, contributing to a **95% defect resolution rate** before release.
- Supported the analysis of requirements and design documentation, translating business needs into detailed test scenarios and actionable test cases with **100% coverage** of critical user stories.
- Configured and maintained test environments, including **SQL Server databases** and application configurations, ensuring availability and data integrity for all testing activities and supporting **multiple client segments**.
- Performed **API testing** using **Postman** against **.NET RESTful services**, identifying and documenting discrepancies between expected and actual API responses, leading to a **20% improvement** in API stability.

SKILLS

Testing Methodologies – Functional Testing, Regression Testing, Smoke Testing, API Testing, Test Scenario Creation, Test Case Execution, Defect Management, Regulatory Compliance Testing.

Tools & Technologies – Jira, SharePoint, MS Excel (formulae), Postman, REST Assured, Selenium, Playwright, Cypress, Windows Server, IIS, .NET, SQL Server, PostgreSQL, MySQL, Oracle.

Financial Services Domain – Wealth Management, Investment Services, Regulated Environments, Payments Operations, Transaction Monitoring, Reconciliation Workflows, GDPR Awareness.

Data & Databases – SQL, Database Querying, Data Validation, Schema Changes, Data Warehousing, Power BI, DAX, Power Query, Tableau, R, Python (pandas, NumPy, scikit-learn).

Development & Operations – Java Spring Boot, Python Scripting, REST APIs, AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Git, Jenkins, CI/CD Pipelines.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Automated Payments Reconciliation & Transaction Monitoring Platform

- Developed an automated system for reconciling financial transactions and monitoring payment flows, integrating with **PostgreSQL** and **Oracle** databases to process over **1 million records daily**.

- Implemented robust alerting mechanisms using **Python** and **Spring Boot** for failed or stuck payment messages, achieving a **99.95% uptime** for critical financial operations dashboard alerts.
- Designed and built interactive dashboards in **Power BI** to visualize transaction success rates, reconciliation discrepancies, and operational KPIs, reducing manual reporting effort by **40%** and informing business decisions.

Enterprise ERP Integration & Change Management Support

- Facilitated seamless integration between core ERP modules and operational platforms via **REST APIs** and direct database connections, supporting systems used by **multiple client segments**.
- Managed change control processes for system configuration updates and UAT coordination, ensuring **zero critical incidents** during post-go-live support phases across interconnected systems.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
