PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Defined detailed product specifications by analysing business requirements and collaborating with stakeholders, ensuring alignment with enterprise objectives.
- Facilitated seamless product integration by working closely with engineers, the data team, and business stakeholders, maintaining 99.9% system uptime.
- Enhanced product features and functionalities through systematic collection and analysis of user feedback, leading to a **15%** increase in user satisfaction scores.
- Ensured successful product delivery by actively participating in **Agile** ceremonies and implementing **Scrum** and **Kanban** methodologies, reducing delivery cycles by **20%**.
- Supported team facilitation and management using **Jira**, streamlining defect tracking and sprint planning processes for a team of 8 engineers.
- Developed and maintained comprehensive Business Process Maps, documenting workflows and identifying areas for operational efficiency improvements across IT products.

SKILLS

Product Analysis – Business Requirements Analysis, Stakeholder Collaboration, User Feedback Analysis, Product Specification, Business Process Mapping, Agile Methodologies

Agile & Project Management – Scrum, Kanban, Jira, Delivery Lead Collaboration, Team Facilitation

Data & Analytics – Data Analysis, Power BI, Tableau, R, Python (pandas, NumPy, scikit-learn), SQL, Data Warehousing

Software Development Lifecycle – CI/CD, Jenkins, Git, Code Reviews, REST APIs, Java Spring Boot, Python Scripting

Cloud & Operations – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Production Support, Incident Response, Splunk, Dynatrace

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

SSE Energy Consumption Analytics Platform (HCL Technologies)

- Developed a comprehensive analytical platform to monitor and forecast energy consumption patterns for SSE customers, integrating data from multiple sources.
- Designed and implemented interactive dashboards using **Power BI** and **Tableau**, enabling business stakeholders to visualize key performance indicators and identify trends, resulting in a **12%** reduction in

energy waste.

- Automated data extraction, transformation, and loading (ETL) processes using **Python** and **SQL** against **PostgreSQL** databases, improving data refresh rates by **40%** and ensuring data accuracy for reporting.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Supported a critical payments operations dashboard used by a financial services client, focusing on transaction-flow monitoring and operational alerting for failed payment messages.
- Managed incident response and SLA adherence for the production environment, ensuring **99.95%** uptime and maintaining detailed audit trails for regulatory compliance.
- Collaborated with cross-functional teams, including business analysts, to gather requirements, support User Acceptance Testing (UAT), and triage post-implementation issues across interconnected systems.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
