

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Developed and deployed novel ML algorithms using **Python** and **scikit-learn**, enhancing advertising campaign ROI by an average of **18%** through predictive modeling.
- Engineered production-grade Python code for ML pipelines, collaborating with data engineers to integrate algorithms that processed millions of requests per second, achieving **99.95%** uptime.
- Prototyped and evaluated potential ML algorithms using historical advertising performance data, iterating on models with **gradient boosting** and **neural networks** to improve click-through rates by **12%**.
- Implemented robust data structures and algorithms in **Java Spring Boot** for backend services, supporting a high-throughput advertising platform that handled billions of decisions daily.
- Managed and automated production support for enterprise applications using **Splunk** and **Dynatrace**, reducing P1/P2 incident resolution time by **30%** and ensuring SLA adherence.
- Designed and integrated cross-system data flows via **REST APIs** and direct database connections (**PostgreSQL**, **MySQL**) for enterprise business systems, streamlining data synchronization across interconnected platforms.

SKILLS

Machine Learning – Algorithm Development, Predictive Modeling, Gradient Boosting, Neural Networks, Statistical Analysis, Optimization, scikit-learn, R

Programming Languages – Python, Java, SQL, R

Backend Development – Spring Boot, REST APIs, Microservices, Java, Python, FastAPI

Data Engineering & Warehousing – ETL, Data Pipelines, SQL, PostgreSQL, MySQL, Oracle, Data Modeling, Power Query

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Business Intelligence – Power BI, Tableau, DAX, Data Visualization

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Real-Time Advertising Performance Optimization Engine (HCL Technologies)

- Architected and developed a real-time ML-driven engine to maximize advertising campaign ROI, processing over **10 million requests per hour**.
- Implemented advanced machine learning algorithms using **Python**, **scikit-learn**, and **Pandas** for predictive modeling and performance forecasting, improving campaign efficiency by **22%**.

- Integrated the ML engine with existing ad-serving infrastructure via **REST APIs** and containerized deployments using **Docker** on **AWS**, ensuring seamless operation within production environments.

Financial Transaction Monitoring Dashboard (HCL Technologies)

- Developed a critical payments operations dashboard for a financial services client, enhancing transaction monitoring capabilities and reducing failed payment message alerts by **35%**.
- Automated data ingestion and reporting processes using **Python** scripting and scheduled SQL queries across **PostgreSQL** and **Oracle** databases, supporting reconciliation workflows.
- Implemented operational alerting mechanisms and integrated with **Splunk** for log analysis and performance monitoring, ensuring adherence to strict SLAs and regulatory awareness.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
