PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Architected and deployed **multi-region Kubernetes** clusters on **Microsoft Azure**, reducing environment provisioning time by **70%** through **Terraform-based Infrastructure as Code**.
- Developed and maintained automated **CI/CD pipelines** using **GitHub Actions** and **Azure DevOps**, enabling **15+ development teams** to deploy code **3x faster** with **99.95%** pipeline uptime.
- Implemented secure delivery practices including **SSO integration** with Azure AD and automated **security scanning** in build pipelines, decreasing critical vulnerability findings by **40%**.
- Managed artifact repositories using **JFrog Artifactory**, ensuring efficient build artifact management and version control for over **100 microservices**, improving deployment consistency by **25%**.
- Supported **Kubernetes-based deployment workflows** including the creation and management of **Helm charts**, standardizing application deployments and reducing rollback incidents by **30%**.
- Authored comprehensive operational **runbooks** and **documentation** for platform services and CI/CD processes, improving incident resolution times by an average of **20%**.

SKILLS

Cloud Platform – Microsoft Azure, AWS, Azure Portal, EC2, S3, Lambda, CloudWatch

Containerization & Orchestration – Kubernetes, Docker, Helm

CI/CD & Automation – GitHub Actions, Azure DevOps, Jenkins, Terraform, Infrastructure as Code

DevOps Tooling – JFrog Artifactory, Splunk, Dynatrace

Languages & Scripting – Python, Java, Bash

Databases – PostgreSQL, MySQL, Oracle

Methodologies – Agile, Scrum, Incident Response, Change Management

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Multi-Region Kubernetes GitOps Platform with Blue-Green Deployment Automation

- Designed and implemented a **GitOps-driven Kubernetes platform** across **Azure** and **AWS**, managing **50+ microservices** for a global financial services client.
- Developed automated **blue-green deployment strategies** using **Argo CD** and **Helm**, enabling zero-downtime releases and reducing deployment risks by **50%**.

- Integrated **Terraform** for provision of cloud infrastructure and **Argo Workflows** for complex pre-deployment validation, achieving a **95%** success rate for automated deployments.

Payments Operations Dashboard & Transaction Monitoring System

- Developed a **payments operations dashboard** using **Java Spring Boot** and **PostgreSQL**, providing real-time visibility into transaction flows for a financial services client.
- Implemented automated alerting for failed and delayed payment messages, decreasing critical operational incidents by **25%** and ensuring adherence to strict SLAs.
- Supported **reconciliation workflows** and provided detailed **audit trails** for transaction processing, meeting regulatory awareness requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
