PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and executed comprehensive **automated test scripts** for complex product features, translating business requirements into functional and technical test plans, reducing manual testing effort by **40%**.
- Maintained extensive libraries of **manual and automated test scripts** across functional, integration, and regression testing cycles, ensuring **99.8%** test coverage for critical product modules.
- Interpreted automation test results and documented software defects in an issue tracking system, proactively communicating critical issues to developers and project team members, accelerating defect resolution time by **2 days**.
- Supported enterprise business systems and integrated with ERP modules by performing change-control management for system configuration updates and coordinating User Acceptance Testing (UAT), ensuring **zero post-go-live critical incidents**.
- Enhanced a payments operations dashboard by implementing **transaction monitoring** and operational alerting for failed payment messages, contributing to a **15%** improvement in payment processing success rates.
- Analyzed and resolved P1/P2 incidents for enterprise applications using **Splunk and Dynatrace**, managing service level agreements (SLAs) and ensuring **99.95%** application uptime.

SKILLS

Testing & QA – Functional Testing, Integration Testing, Regression Testing, Performance Testing, Automation Scripting, Test Script Libraries, Defect Tracking, QA Methodology, Test Plan Creation, UAT Support

Databases & SQL – SQL Query Language, Database Testing, Data Validation, Schema Changes, Complex SQL Queries, Database Performance Testing, Database Security

Programming Languages – Java, Python, SQL, C#

Cloud & DevOps – AWS, Azure, Docker, Jenkins, CI/CD, Git

Enterprise Systems – ERP Systems, Business Systems Support, Change Management, REST APIs, Financial Services Industry

BI & Data Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing

Methodologies – Agile, Scrum, SDLC, Information Security, Data Governance

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

CRD Platform Test Automation Framework

- Engineered a scalable **test automation framework** using **Python** and **Selenium** to automate testing of web applications, achieving **85%** automation coverage for core product features.
- Developed and maintained a comprehensive suite of **SQL validation scripts** to verify data integrity and consistency across multiple databases, identifying and resolving **50+ critical data discrepancies**.
- Integrated the automation framework with **Jenkins CI/CD pipelines**, enabling continuous testing and providing rapid feedback on build stability, reducing regression testing time by **60%**.

Financial Services Transaction Monitoring Dashboard

- Developed and supported a **payments operations dashboard**, implementing real-time **transaction monitoring** and alerting for failed payment messages in a production environment.
- Collaborated with business analysts to gather requirements for operational dashboards, ensuring adherence to **GDPR awareness** and audit trail requirements for financial services workflows.
- Automated data extraction and reporting processes using **Python scripting** and **SQL** queries against PostgreSQL and Oracle databases, reducing manual reporting effort by **50%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
