PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Translated complex client business needs into detailed technical requirements and process maps, ensuring alignment between business stakeholders and development teams for **ecommerce solutions**, reducing scope creep by **15%**.
- Analyzed and documented existing system code and configurations to understand functionality and identify integration points, enabling clear communication of technical architecture to clients and development teams.
- Managed project timelines and commitments with a focus on reliability, proactively communicating deviations and risks to stakeholders to maintain transparency and trust, achieving a **98% on-time delivery rate**.
- Investigated and troubleshooted issues within existing codebases and data structures to answer client questions and identify root causes, contributing to the successful resolution of **over 50 critical client-reported issues**.
- Developed and executed test cases for new features and integrations, validating functionality against documented requirements and ensuring seamless user acceptance testing (UAT) phases for **multiple enterprise system updates**.
- Supported the implementation of AI tooling, including **Claude Code and Cursor**, to accelerate research, code analysis, and documentation processes, enhancing team productivity by an estimated **20%**.

SKILLS

Consulting & Analysis – Requirements Gathering, Business Process Mapping, System Analysis, Client Communication, Technical Documentation, AI-Assisted Research, Problem Solving.

Programming & Scripting – Python, Java, Spring Boot, SQL, Shell Scripting, REST APIs.

Data & Databases – SQL (PostgreSQL, MySQL, Oracle), Data Analysis, Data Validation, Power Query, DAX.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Git, Jenkins.

Tools & Platforms – Jira, Confluence, Splunk, Dynatrace, Postman, Insomnia, Power BI, Tableau.

AI & Development Tools – Claude Code, Cursor, GitHub Copilot, Codebase Comprehension.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Automated E-commerce Order Fulfillment & Reconciliation System (HCL Technologies)

- Designed and documented a system to automate order fulfillment workflows for a retail client, integrating ERP data with their e-commerce platform via **REST APIs**, reducing manual processing time by **40%**.
- Developed Python scripts to perform automated reconciliation checks between sales orders and payment gateway transactions, identifying and flagging discrepancies with **99.5% accuracy**.

- Configured **Splunk dashboards** to provide real-time operational visibility into order processing status, exception alerts, and fulfillment bottlenecks, enabling proactive issue resolution and SLA adherence.

Client Requirements Translation & System Understanding Framework

- Established a standardized framework for translating client business problems into actionable development tasks, incorporating structured interviews, process flow diagrams, and technical code analysis.
- Authored comprehensive documentation and user guides for complex system integrations, improving knowledge transfer and reducing onboarding time for new team members by **25%**.
- Mentored junior engineers on effective debugging techniques and code comprehension strategies, fostering a proactive problem-solving culture within the team.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
