+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Provided primary technical escalation for complex equipment issues, diagnosing faults and guiding field service engineers to ensure timely resolutions and maintain **99.8% service uptime**.
- Analysed **equipment behaviour** and **fault patterns**, recommending corrective actions that reduced critical asset downtime by **15%** across Ireland's water and industrial infrastructure.
- Captured, retained, and shared **technical knowledge** across the service organisation by developing detailed troubleshooting guides and conducting **3 cross-functional training sessions** per quarter.
- Supported and maintained service response obligations by liaising with global technical experts to resolve escalated issues, contributing to a **10% improvement** in overall service performance.
- Managed change-control processes for system configuration updates and coordinated User Acceptance Testing (UAT), ensuring **seamless integration** of new operational platforms with existing ERP modules.
- Developed Python scripts for automation and data pipelines, processing over **10,000 daily records** to support scheduled reporting and ETL tasks, enhancing data accuracy by **20%**.

SKILLS

Technical Support – Troubleshooting, Fault Diagnosis, Technical Escalation, Equipment Support, Service Delivery.

Engineering Domains – Rotating Equipment, Pumps, Mechanical Systems, Electrical Systems, Industrial Maintenance.

Data Analysis & Reporting – Technical Data Interpretation, Fault Pattern Analysis, Diagnostic Skills, Analytical Skills, Performance Metrics.

Software & Tools – Python, SQL, Jira, Confluence, AWS (EC2, S3, Lambda), Linux, Jenkins.

Problem Solving – Root Cause Analysis, Corrective Actions, Continuous Improvement, Proactive Problem Solving.

Communication & Collaboration – Stakeholder Support (Internal/External), Knowledge Sharing, Cross-functional Collaboration.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Sulzer Equipment Diagnostic and Knowledge Management System

- Developed a centralised **technical support portal** using Python and Flask, integrating with an Oracle database to manage equipment diagnostics and failure data for over 500 pump models.

- Implemented a **fault pattern analysis engine** that correlated 10,000+ historical incident logs, reducing average fault diagnosis time for field engineers by **25%**.
- Designed and deployed a **knowledge-sharing framework**, enabling service engineers to contribute and access troubleshooting guides, improving first-time fix rates by **18%**.

HCL Financial Services Transaction Monitoring Dashboard

- Enhanced a **payments operations dashboard** by implementing real-time transaction monitoring and operational alerting for failed financial messages, achieving **99.95% uptime**.
- Developed Python automation scripts for data ingestion and validation from multiple sources, supporting **reconciliation workflows** and ensuring data integrity for regulatory audit trails.
- Collaborated with business analysts to refine requirements for new features, directly supporting **GDPR-aware production environments** and improving incident response times by **30%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
