PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed production deployments across all development lifecycle stages, ensuring reliable data retrieval and compliance with data policies, contributing to a **99.95% uptime** for critical trading systems.
- Maintained and improved a large, distributed set of **CI/CD pipelines**, investigating **execution failures** and driving remediation that reduced pipeline failure rates by **15%**.
- Implemented automation and structural improvements to eliminate recurring issues in a **distributed environment**, reducing manual intervention by **20%** and enhancing system reliability.
- Troubleshoot and resolved production incidents and change requests within defined SLAs, performing **root-cause analysis** and implementing long-term fixes that prevented recurrence, improving mean time to resolution by **10%**.
- Updated and maintained **toolchains, build dependencies, and related infrastructure**, applying retention policies across relevant systems and environments to ensure data integrity and compliance.
- Developed expertise in Susquehanna's systems and business operations by actively participating in **global follow-the-sun team** activities during EMEA hours, ensuring continuous support and operational effectiveness.

SKILLS

DevOps & CI/CD – CI/CD pipelines, Jenkins, GitLab, TeamCity, Octopus Deploy, Production Deployments, Change Management

Programming & Scripting – Python, Bash, PowerShell, Java, Spring Boot

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Linux, Docker

Data & Orchestration – Apache Airflow, ETL, Data Pipelines, SQL (PostgreSQL, MySQL, Oracle), Data Warehousing

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, Incident Response, Root Cause Analysis

Development Practices – Agile/Scrum, Git, Code Reviews, REST APIs, Microservices

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Automated Trading System Deployment Platform

- Engineered a comprehensive **GitOps platform** utilizing **GitLab** and **Jenkins** to manage deployments for a suite of quantitative trading tools across a distributed Linux infrastructure.

- Developed **Python** scripts to automate the build, testing, and deployment phases of the CI/CD pipeline, successfully deploying over **500 updates** per quarter with **99.9% success rate**.
- Implemented robust monitoring and alerting using **Splunk** and **Dynatrace**, reducing incident detection time by **30%** and enabling proactive resolution of production issues.
- Integrated **Apache Airflow** for managing complex data pipeline orchestration and ETL processes, ensuring timely and reliable data retrieval for quantitative research.

Financial Services Transaction Monitoring Dashboard

- Supported and enhanced a **payments operations dashboard** for a financial-services client, focusing on transaction-flow monitoring and operational alerting for failed payment messages.
- Developed **Java Spring Boot** features and REST APIs to improve the real-time processing of financial transaction data, handling volumes of **millions of messages daily**.
- Collaborated with business analysts to refine requirements for reconciliation workflows and implemented enhancements to improve audit trail accuracy, ensuring compliance with **GDPR** awareness.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
