PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Analyzed and tracked special situations including mergers, acquisitions, and corporate actions, providing real-time opinions on breaking news and identifying future event impacts to inform trading desk strategies.
- Developed and maintained Python scripts for data pipelines and automated reporting, reducing manual data extraction and analysis time by **40%** for research team deliverables.
- Performed stock valuation analysis and fundamental company research, contributing to the development of investment ideas and directly impacting trading decisions within a fast-paced proprietary trading environment.
- Collaborated with senior analysts and traders to formulate trade ideas, leveraging quantitative insights and creative problem-solving to uncover market opportunities missed by other participants.
- Managed and supported enterprise business systems, including ERP modules, through change-control processes and UAT coordination, ensuring seamless integration and operational continuity.
- Enhanced data visualization capabilities by developing interactive dashboards in **Power BI** and **Tableau**, translating complex datasets into actionable insights for business stakeholders and supporting strategic decision-making.

SKILLS

Financial Research & Analysis – Special Situations Analysis, Event Driven Analysis, Fundamental Company Research, Stock Valuation, Options Analysis, Derivative Products, Market Data Analysis

Programming & Scripting – Python, Java, SQL, Spring Boot, REST APIs

Data Visualization & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Business Intelligence

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Enterprise Systems – ERP Integration Support, Change Management, Production Support, Incident Response

Analytical Tools – Pandas, NumPy, Scikit-learn, R/RStudio

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Event-Driven Investment Opportunity Identification Platform

- Designed and implemented a Python-based platform to monitor and analyze SEC filings and financial news feeds, identifying potential merger, acquisition, and special event opportunities with **90% accuracy**.
- Developed predictive models using **scikit-learn** to forecast the impact of corporate actions on stock prices, reducing analysis time for potential trades by **60%**.

- Integrated real-time market data from financial APIs and presented key event impacts and valuation metrics through interactive dashboards built with **Power BI** for direct consumption by traders.

HCL Financial Services Transaction Monitoring Dashboard

- Supported a payments operations dashboard for a financial services client, focusing on transaction monitoring and operational alerting for failed payment messages.
- Managed production environments with strict SLAs, ensuring audit trails and regulatory awareness, contributing to **99.95%** uptime for critical financial operations.
- Collaborated with cross-functional teams, including business analysts, for requirements gathering and post-implementation triage of transaction processing issues.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
