PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Resolved critical production incidents across **Java Spring Boot** and **.NET** trading applications by performing in-depth **log analysis** using **Splunk** and **Dynatrace**, achieving a **99.8%** SLA adherence for P1/P2 issues.
- Automated manual operational tasks for a financial-services dashboard by developing **Python scripts** for data pipeline orchestration and report generation, reducing manual intervention time by **40%**.
- Enhanced system stability for an ERP integration platform by managing **change-control processes** for system configuration updates and coordinating **UAT**, resulting in a **15%** decrease in post-go-live defects.
- Developed and deployed interactive **Power BI dashboards** for business stakeholders, consolidating key performance indicators from disparate data sources and enabling data-driven decision-making, leading to a **10%** improvement in operational efficiency.
- Maintained and improved monitoring and alerting tools for distributed trading systems, proactively detecting and responding to issues by configuring rules within **ELK stack** components, preventing an estimated **5 major outages** per quarter.
- Supported live trading environments by diagnosing and resolving application and system issues through investigation of system behaviour and workflows, acting as a key point of contact between development and business teams.

SKILLS

Core Engineering – Python, Java, Spring Boot, .NET, REST APIs, Linux, Shell Scripting, Git, Docker

Production Support & Monitoring – Splunk, Dynatrace, CloudWatch, ELK Stack, Incident Response, SLA Management, Log Analysis

Databases & Data Management – SQL, PostgreSQL, MySQL, Oracle, Data Warehousing, ETL, Data Modelling

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Jenkins, CI/CD

Business Intelligence & Analytics – Power BI, Tableau, DAX, Power Query, R, RStudio, pandas, NumPy, scikit-learn, Statistical Analysis

Enterprise Systems & Processes – ERP Support, Change Management, UAT Coordination, Jira, Confluence

Financial Systems Concepts – Trading Systems Support, Payments Operations Dashboard, Transaction Monitoring, Reconciliation Workflows

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Automated Trading System Anomaly Detection Platform

- Engineered an anomaly detection system for critical trading applications by developing **Python scripts** and integrating **machine learning models** (scikit-learn) with real-time data streams from **PostgreSQL**, identifying and flagging suspicious transaction patterns with **92% accuracy**.
- Built and maintained automated monitoring and alerting mechanisms using the **ELK stack** (Elasticsearch, Logstash, Kibana), processing over **1 million log events per hour** to proactively detect system deviations and reduce incident response time by **30%**.
- Collaborated with infrastructure teams to deploy and manage the platform on **AWS EC2 instances**, implementing robust **CI/CD pipelines** with Jenkins to ensure seamless updates and maintain **99.95% system availability**.

Financial Services Transaction Monitoring Dashboard

- Developed a comprehensive **Power BI dashboard** to monitor transaction flows and operational alerting for a financial-services client, visualizing key metrics and identifying failed/stuck payment messages.
- Implemented automated data extraction and transformation processes using **Python** and **SQL** against **Oracle and PostgreSQL** databases, ensuring data accuracy for the reporting dashboard and reducing data preparation time by **25%**.
- Managed production support for the dashboard, responding to incidents and performing root cause analysis in a highly regulated environment with strict audit trail requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
