

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Automated the deployment of **Java Spring Boot** microservices to **AWS EC2** instances using **Jenkins** pipelines, reducing deployment time by **40%** and improving release frequency.
- Enhanced the performance of a **financial-services operations dashboard** by optimizing **SQL queries** across **PostgreSQL** and **Oracle** databases, resulting in a **30%** reduction in report generation latency.
- Managed incident response for critical production systems, diagnosing and resolving P1/P2 issues within SLA targets by analyzing logs in **Splunk** and **Dynatrace**, achieving **99.95%** system uptime.
- Developed Python scripts to automate data validation and ETL processes for **ERP system** integrations, ensuring data consistency across interconnected business platforms and reducing manual effort by **25%**.
- Implemented robust monitoring and alerting for transaction processing workflows on a **payments operations dashboard**, identifying and resolving anomalies that prevented potential financial discrepancies and maintaining audit trail integrity.
- Collaborated with cross-functional teams to support change management processes for enterprise business systems, coordinating UAT and post-go-live triage to ensure smooth system updates and minimize operational disruption.

SKILLS

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Shell Scripting

Programming & Scripting – Python, Java, Spring Boot, REST APIs, SQL

Databases – PostgreSQL, MySQL, Oracle

CI/CD & DevOps – Jenkins, Git, Agile/Scrum

Monitoring & Observability – Splunk, Dynatrace

Data Analytics & BI – Power BI, DAX, Tableau, R, pandas, NumPy, scikit-learn

Enterprise Systems – ERP Support, Change Management, Business Systems Integration

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Real-Time Infrastructure Monitoring & Alerting Platform (HCL Technologies)

- Engineered a centralized monitoring platform using **Python** and **AWS Lambda** to aggregate logs from diverse enterprise applications, processing over **1 million log entries daily**.
- Developed custom alerting rules in **Splunk** based on critical performance indicators and error patterns, reducing mean time to detect (MTTD) for production incidents by **50%**.

- Integrated monitoring data with a **Java Spring Boot**-based dashboard, providing operations teams with real-time visibility into system health and performance metrics across **AWS EC2** and containerized services.

Automated Financial Transaction Reconciliation System (MSc Data Analytics Project)

- Designed and implemented an automated reconciliation workflow using **Power BI** and **SQL**, comparing transaction data from multiple sources to identify discrepancies with **99.8% accuracy**.
- Built interactive **Power BI dashboards** with complex **DAX measures** to visualize reconciliation status, exceptions, and trends for business stakeholders, enabling faster resolution of financial exceptions.
- Developed data transformation logic using **Power Query** and **Python** to clean and standardize disparate financial data formats, ensuring seamless integration into the analytical model.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
