## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India**

**09/2021 – 01/2025 (3.5 Years)**

- Resolved over 500 critical incidents for hospital systems, restoring services within strict SLAs and reducing downtime by **15%** through proactive monitoring with **Splunk** and **Dynatrace**.
- Automated complex ETL processes using **Python** scripting, reducing manual data processing time by **40%** and improving data accuracy for upstream reporting.
- Managed a caseload of 50+ daily service requests and incidents, maintaining detailed case updates and resolving issues to enhance user satisfaction and operational efficiency.
- Supported live operational systems across EU hospitals, contributing to continuous service improvement plans and ensuring system stability for **10,000+** enterprise users.
- Collaborated with cross-functional teams on change management initiatives, coordinating User Acceptance Testing (UAT) and providing post-go-live support for enterprise business systems, ensuring **99.8%** successful deployments.
- Developed and maintained knowledge articles and documentation for IT support services, improving first-contact resolution rates by **20%** and standardizing support procedures.

## SKILLS

**Core IT Support** – Incident Management, Service Request Management, Problem Management, ITIL Framework, Change Management, Knowledge Management, SLA Management

**Operating Systems** – Linux, Windows Server

**Databases** – PostgreSQL, MySQL, Oracle

**Programming & Scripting** – Python, Java, Spring Boot, SQL

**Cloud & Containerization** – AWS (EC2, S3, Lambda, CloudWatch), Docker

**Monitoring & Observability** – Splunk, Dynatrace

**CI/CD & Version Control** – Jenkins, Git

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of  
Ireland, Dublin**

**02/2026**

**BACHELOR OF ENGINEERING in Computer Science – SNS College  
of Technology, Coimbatore, India**

**01/2021**

## PROJECTS

**European Healthcare Operations Dashboard (HCL Technologies)**

- Developed and maintained a critical **healthcare operations dashboard** supporting EU hospital systems, ensuring **99.95%** uptime and real-time visibility into application health.
- Implemented **incident management** workflows and automated alerting using **Python** and **Splunk**, reducing response times for critical system failures by **30%**.

- Collaborated with business analysts to define requirements for new dashboard features, including enhancing **transaction monitoring** and **reconciliation workflows** for patient data integrity.

#### **ITSM Service Restoration Automation**

- Engineered an automated service restoration solution using **Linux** shell scripting and **Python**, decreasing the average time to resolve common infrastructure incidents by **25%**.
- Integrated the solution with IT Service Management (ITSM) tools via **REST APIs**, enabling seamless incident logging and status updates for a user base of **5,000+**.
- Managed the deployment and ongoing support of the automation suite, ensuring high availability and reliability of critical IT services.

### **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
