PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed **incident resolution** for critical hospital systems, restoring service availability within **99.8% SLA targets** by analyzing logs and coordinating cross-functional teams.
- Enhanced **existing services** for a healthcare client by implementing bug fixes and feature enhancements in **Java Spring Boot**, improving system stability by **15%**.
- Developed **Python scripts** to automate data extraction and reporting tasks for operational dashboards, reducing manual effort by **40%** and improving data accuracy.
- Supported **live systems operational in hospitals** across the EU by performing root cause analysis on recurring incidents and developing knowledge articles for continuous service improvement plans.
- Executed **change management processes** for system configuration updates in interconnected ERP and business platforms, coordinating User Acceptance Testing (UAT) for **5 major releases**.
- Resolved over **200+ daily support cases**, meticulously updating tickets and troubleshooting application issues for enterprise users, ensuring high customer satisfaction.

SKILLS

Core IT Support – Incident Management, Service Request Management, Problem Management, Change Management, ITIL Framework, Knowledge Articles

Operating Systems – Linux, Windows Server

Programming & Scripting – Python, Java, Spring Boot, Shell Scripting

Databases – SQL, PostgreSQL, MySQL, Oracle

Cloud & Virtualization – AWS (EC2, S3, Lambda), Docker

Monitoring & Observability – Splunk, Dynatrace, CloudWatch

DevOps & CI/CD – Jenkins, Git

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Healthcare Application Support & Enhancement Platform (HCL Technologies)

- Engineered a comprehensive support framework for a multi-lingual healthcare client's operational dashboard, ensuring **99.9% uptime** for critical hospital systems across the EU.
- Automated incident triage and resolution workflows using **Python and SQL**, reducing average resolution time for P1/P2 incidents by **25%** and enabling faster service restoration.

- Collaborated with business analysts to define and implement enhancements for transaction monitoring and reconciliation workflows, improving data integrity for regulatory audits.

ERP System Integration & Support Automation (HCL Technologies)

- Streamlined support for an enterprise ERP system by developing **RESTful APIs** and integration scripts in **Java Spring Boot**, connecting disparate business platforms.
- Automated routine system checks and data validation processes using **SQL queries and Python scripts**, decreasing manual intervention by **30%** and improving operational efficiency.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
