

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and deployed **Python**-based ETL pipelines, processing over 1TB of raw data daily to populate analytical databases, reducing data ingestion time by **40%**.
- Constructed and maintained **machine learning models** using **Scikit-learn** and **Pandas** for predictive analytics, achieving an average accuracy of **92%** in customer segmentation.
- Designed and implemented interactive **Power BI** dashboards, consolidating performance metrics from disparate data sources and enabling stakeholders to track key trends, leading to a **15%** improvement in strategic decision-making speed.
- Refactored complex **SQL** queries across **PostgreSQL** and **Oracle** databases, optimizing performance and reducing report generation times by an average of **30%**.
- Managed production support for a **payments operations dashboard**, resolving P1/P2 incidents within SLA targets and enhancing system stability through proactive monitoring with **Dynatrace** and **Splunk**.
- Contributed to the development of **Java Spring Boot** microservices, building REST APIs that facilitated cross-system integrations and supported a **25%** increase in transaction processing throughput.

SKILLS

Programming Languages – Python, R, SQL.

Machine Learning – Scikit-learn, TensorFlow, PyTorch, OLS, multinomial logistic regression, LDA, clustering, segmentation.

Data Processing & Big Data – Databricks, Spark, Hadoop, Pandas, NumPy.

Business Intelligence & Visualization – Power BI, DAX, Power Query, Tableau.

Cloud & DevOps – AWS (EC2, S3, Lambda), Docker, Jenkins, Git.

Backend Development – Java, Spring Boot, REST APIs, Flask, FastAPI.

Enterprise Systems – ERP support, Change Management, Jira, Confluence.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

AI-Powered Transaction Anomaly Detection System

- Engineered a real-time anomaly detection system using **Python** and **Scikit-learn**, processing millions of financial transactions daily on **Databricks** to identify fraudulent activities with **95%** precision.
- Developed data pipelines with **Spark** to cleanse and structure large volumes of historical transaction data, enabling effective training of **machine learning models** and improving model performance by **20%**.

- Created comprehensive **Power BI** dashboards to visualize detected anomalies, monitor system performance, and provide actionable insights to fraud investigation teams, reducing manual review effort by **35%**.

Financial Services Operations Dashboard Enhancement

- Enhanced a **payments operations dashboard** by implementing automated data ingestion and alerting mechanisms using **Python** scripting and **SQL** against **PostgreSQL**, improving real-time visibility into transaction flows.
- Provided production support for critical financial services applications, resolving operational issues and maintaining high availability for transaction monitoring and reconciliation workflows, ensuring **99.95%** uptime.
- Collaborated with business analysts to gather requirements for new operational metrics and implemented them via **SQL** queries and dashboard updates, supporting regulatory and GDPR compliance.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
