PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed the **shipping, receiving, and internal movement** of IT equipment within a high-security data centre environment, achieving **99.8% accuracy** in asset logging through meticulous record-keeping.
- Processed inbound and outbound deliveries, ensuring all equipment was **correctly logged, labelled, and stored**, reducing processing time per shipment by **15%** through optimized workflow adherence.
- Maintained accurate **stock control and inventory systems**, reconciling physical assets with system records to ensure **100% data accuracy** for critical IT hardware.
- Organised warehouse and storage areas, implementing a new shelving system that improved **efficient, safe, and compliant stock management**, increasing storage capacity by **20%**.
- Tracked and managed asset lifecycle activities including **installations, relocations, returns (RMA), and decommissioning**, reducing asset loss by **10%** annually.
- Supported audits and cycle counts, contributing to a **30% improvement** in inventory data accuracy and ensuring **chain-of-custody** requirements were met for all tracked assets.

SKILLS

Logistics & Operations – Shipping, Receiving, Inventory Control, Warehousing, Asset Tracking, Stock Management, RMA Processing, Cycle Counts

Data Centre Environment – High-Security Access Protocols, Operational Continuity, Health & Safety Compliance, IT Equipment Handling

System & Process Management – Process Compliance, Data Accuracy, Workflow Adherence, Change Control, Audit Support

Technical Proficiency – Linux Shell Scripting, SQL Ad-hoc Queries, Python Automation, IT Equipment Labelling

Collaboration & Communication – Operations Teams, Security Personnel, Logistics Partners, Cross-functional Coordination

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Data Centre Asset Lifecycle Management System (HCL Technologies)

- Developed a Python-based system to automate the tracking of IT equipment lifecycle stages, from **shipping and receiving** to **decommissioning**, reducing manual data entry errors by **25%**.

- Integrated with existing **inventory systems** using SQL queries against PostgreSQL and Oracle databases to ensure real-time alignment of physical and digital asset records.
- Implemented automated alerts for low stock levels and pending RMAs, improving **warehouse organization** and streamlining the **returns process**, contributing to a **10% reduction** in lead times for replacement parts.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Supported the production environment for a payments operations dashboard, focusing on **transaction-flow monitoring** and operational alerting for failed payment messages.
- Automated data validation scripts using **Python** and **SQL** to ensure data integrity for **reconciliation workflows**, maintaining audit trail accuracy for regulatory compliance.
- Collaborated with business analysts to triage and resolve production incidents, ensuring **99.9% uptime** for critical financial services operational dashboards.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
