PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed and supported outbound data extracts for a financial-services client, ensuring **99.8% data accuracy** for standard extracts like Spos 4x, Standard Trade, and Taxlot.
- Configured and maintained electronic interfaces for outbound data exchange from Citco applications, resolving **95% of data discrepancy issues** within 24 hours to meet internal Operations and Client Integration team requests.
- Provided Level 1 support and troubleshooting for standard extracts, identifying root causes for file generation or data issues and implementing workarounds that reduced escalations by **30%**.
- Collaborated with Client Integration teams to develop and implement new standard Spos/STRD/Taxlot extracts, onboarding **5 new clients** within the first quarter of engagement.
- Automated the process for retiring legacy reports that were no longer required, reducing manual effort by **15 hours per month** and improving system efficiency.
- Analyzed and documented opportunities for workflow process improvements and automation in reporting, contributing to the development of actionable projects that improved efficiency by **10%**.

SKILLS

Data Operations & Reporting – Outbound Extracts, Standard Extracts (Spos 4x, Standard Trade, Taxlot), Interface Configuration, Data Exchange, Client Onboarding, Legacy Report Decommissioning, Process Improvement

Data Analysis & Support – Level 1 Support, Troubleshooting, Data Discrepancy Resolution, Root Cause Analysis, Workaround Implementation, Stakeholder Communication (Internal & External)

Financial Services Domain – Portfolio Data Management, Reconciliations, Transaction Monitoring, Financial Instruments Understanding, Vendor Data Exchange

Database & Scripting – SQL (PostgreSQL, MySQL, Oracle), Python Scripting, Data Validation, Schema Changes

BI & Visualization – Power BI, Tableau, DAX Measures, Power Query, Data Modelling, Business Intelligence Dashboards

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Linux, Shell Scripting

Software Development Lifecycle – Java Spring Boot, REST APIs, CI/CD (Jenkins), Git, Jira, Agile/Scrum

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Automated Client Data Extract Management Platform (HCL Technologies)

- Developed a Python-based platform to automate the generation and delivery of custom data extracts for financial services clients, processing over **10,000 extract requests per month** with 99.9% success rate.
- Integrated with client-specific schemas and reporting requirements, implementing configurable parameters that reduced manual intervention for new extract creation by **40%**.
- Built a comprehensive monitoring and alerting system using AWS CloudWatch and Splunk, ensuring real-time notification of extract failures and enabling proactive issue resolution within **1 hour**.

Financial Transaction Reconciliation Dashboard (MSc Data Analytics Project)

- Designed and implemented an interactive dashboard in Power BI to visualize and reconcile high-volume financial transaction data, consolidating information from 5 disparate sources.
- Developed complex DAX measures for variance analysis and anomaly detection, reducing the time required for manual reconciliation by **50%** for the business stakeholders.
- Utilized Power Query for robust ETL processes, cleaning and transforming raw transaction data to ensure data integrity and accuracy for reporting.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
