PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed new Python applications for the treasury and trade operations space, integrating with existing software systems and adhering to development best practices, contributing to a **15%** increase in system throughput.
- Enhanced current software systems by contributing to module development and architectural improvements, implementing **FastAPI** and **PostgreSQL** for backend services, resulting in a **20%** reduction in API latency.
- Contributed to the automated build process by managing **Jenkins** pipelines and Git branching strategies, reducing deployment times by **25%** and improving code quality through mandatory code reviews.
- Supported users by developing comprehensive system documentation and assistance tools within **Confluence**, leading to a **30%** decrease in Tier 2 support tickets and improved onboarding efficiency for new team members.
- Investigated and presented alternatives and new technologies for architectural review, including exploring **AWS Lambda** for event-driven processing and **Docker** for containerization, supporting continuous improvement initiatives.
- Resolved technical issues through advanced debugging, research, and investigation on enterprise systems, maintaining **99.9%** uptime for critical financial services operations dashboards and supporting regulatory compliance.

SKILLS

Backend Development – Python, FastAPI, Java Spring Boot, REST APIs, Microservices

Frontend Development – TypeScript, React 18, Material UI/MUI, JavaScript Frameworks

Cloud & DevOps – AWS Cloud Platform, EC2, S3, Lambda, CloudWatch, Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle, SQL, Data Warehousing

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn, Splunk, Dynatrace

Methodologies & Tools – Agile/Scrum, Jira, Confluence, Test-Driven Development (TDD), Code Generation Tools (Amazon Q, Co-pilot)

Financial Domain – Payments Operations Dashboards, Transaction Monitoring, Reconciliation Workflows, Enterprise Business Systems Support

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Real-Time Trade Operations & Treasury Platform (HCL Technologies)

- Designed and developed a full-stack application for treasury and trade operations, utilizing **Python** with **FastAPI** for the backend and **React 18** with **TypeScript** and **Material UI** for the frontend, processing over 10,000 transactions daily.
- Integrated with **PostgreSQL** for robust data persistence and implemented RESTful web services and APIs to facilitate seamless communication between frontend and backend components, achieving sub-200ms API response times.
- Deployed the application on **AWS Cloud Platform** using **Docker** containers managed via **Jenkins** CI/CD pipelines, ensuring high availability and scalability for mission-critical financial operations.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Engineered a **payments operations dashboard** to monitor transaction flows and operational alerts for a financial-services client, supporting critical reconciliation workflows.
- Developed automated data pipelines using **Python** and SQL queries across **PostgreSQL** and Oracle databases to validate transaction data and identify discrepancies, reducing manual reconciliation effort by **40%**.
- Implemented real-time monitoring and alerting mechanisms using **Splunk** and **Dynatrace**, ensuring adherence to strict SLAs and providing comprehensive audit trails for regulatory awareness.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
