PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Streamlined operational processes by automating 15+ manual workflows using **Python scripting** and **Jenkins pipelines**, reducing manual effort by **40%** and improving task turnaround time.
- Enhanced system reliability and performance for enterprise applications by implementing proactive monitoring and incident response using **Splunk** and **Dynatrace**, achieving **99.95%** uptime against SLAs.
- Developed and deployed new features for a financial-services operations dashboard, including **REST API development** in **Java Spring Boot**, to improve transaction monitoring capabilities and reduce error rates by **18%**.
- Managed change control processes and coordinated User Acceptance Testing (UAT) for ERP and business system updates, ensuring seamless integration and **95%** successful deployments across interconnected platforms.
- Designed and implemented interactive dashboards and data visualizations in **Power BI** for MSc Data Analytics coursework, consolidating key business metrics and providing actionable insights that informed strategic decisions, resulting in a **15%** improvement in project efficiency.
- Contributed to data infrastructure improvements by optimizing SQL queries and performing data validation across **PostgreSQL** and **Oracle** databases, supporting complex analytical reporting and reducing data retrieval times by **22%**.

SKILLS

Core Development – Java, Spring Boot, Python, Flask, FastAPI, .NET, JavaScript, React, Angular, TypeScript, Node.js, NestJS, Rust

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, RStudio, pandas, NumPy, scikit-learn, SQL, Data Warehousing, ETL

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Linux, Shell Scripting

Operations & Support – Splunk, Dynatrace, CI/CD, Jenkins, Git, Jira, Confluence, Incident Response, Change Management, UAT

Business Systems – ERP Integration Support, Payments Operations Dashboard, Transaction Monitoring, Reconciliation Workflows, GDPR Compliance

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

AI-Assisted Content Moderation Platform (HCL Technologies)

- Developed an **AI-driven platform** to automate the initial review of user-generated content, integrating **LLM agents** for text and image analysis, reducing manual moderation workload by **35%**.
- Engineered data pipelines using **Python** and **FastAPI** to ingest and process over 1 million content items daily, feeding data into ML models for classification and anomaly detection with **92%** accuracy.
- Implemented a centralized dashboard in **Power BI** displaying key moderation metrics, AI model performance, and operational efficiency, enabling real-time decision-making and a **20%** reduction in policy violation response times.
- Collaborated with R&D; and business teams to define product requirements (BRD) and translate them into technical specifications for platform enhancements, ensuring alignment with **compliance requirements** and operational goals.
- Managed project timelines and cross-functional coordination with Engineering and Operations for the phased rollout of new AI moderation features, ensuring timely delivery and high-quality execution across global teams.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Built and maintained a real-time **payments operations dashboard** to monitor transaction flows, identifying and alerting on failed or stuck payment messages, contributing to a **99.9%** processing uptime.
- Automated data extraction and reconciliation processes using **Python** and **SQL** across **PostgreSQL** and **MySQL**, reducing manual reconciliation efforts by **50%** and improving data accuracy.
- Supported production environments with strict SLAs, ensuring robust **audit trails** and adherence to **GDPR-aware** data handling practices for sensitive financial data.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
