PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed **Java Spring Boot** microservices and REST APIs for a core payments processing platform, enhancing transaction throughput by **18%** and supporting millions of financial transactions daily.
- Automated data ingestion and transformation pipelines using **Python** and **SQL**, reducing manual data preparation time for financial reporting by **40%** and improving data accuracy.
- Managed production incidents and SLA adherence for enterprise applications, resolving P1/P2 issues within target times and maintaining **99.95%** uptime through proactive monitoring with **Splunk** and **Dynatrace**.
- Designed and implemented interactive dashboards and data visualizations in **Power BI**, consolidating key performance indicators from disparate sources and enabling executive decision-making, resulting in a **15%** improvement in strategic planning.
- Supported and integrated with enterprise business systems, including **ERP** modules, managing change control processes and ensuring seamless data flow across interconnected platforms via **REST APIs**.
- Collaborated with cross-functional teams to refine requirements and support User Acceptance Testing (UAT) for new feature releases on a financial-services operations dashboard, ensuring alignment with business objectives and regulatory awareness.

SKILLS

Backend Development – Java, Spring Boot, Python, REST APIs, Microservices, Kotlin

Frontend Development – React, Angular, JavaScript

Databases & Data Warehousing – SQL, PostgreSQL, MySQL, Oracle, DynamoDB, Data Modelling

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Business Intelligence – Power BI, DAX, Tableau, Power Query, Data Visualisation

Analytics & Machine Learning – Pandas, NumPy, scikit-learn, R, Statistical Analysis

Payments & Financial Systems – Payments Processing, Transaction Monitoring, Reconciliation Workflows, ERP Integration Support

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Toast Restaurant Payments Pricing Engine

- Engineered a scalable **Java** backend service to manage dynamic pricing logic for restaurant credit card payments, processing over **5 million** financial transactions per day.

- Integrated with **AWS DynamoDB** for persistent storage of pricing rules and transaction logs, achieving sub-50ms read latency for critical pricing lookups.
- Developed **REST APIs** to interface with upstream order management systems and downstream payment gateways, ensuring seamless and accurate money movement for restaurant partners.
- Implemented comprehensive automated testing suites, including unit, integration, and end-to-end tests, achieving over **90%** code coverage and ensuring platform reliability.

HCL Financial Services Transaction Monitoring Dashboard

- Developed and maintained production monitoring dashboards using **Splunk** and **Dynatrace** for a financial-services client's payments operations, enabling real-time alerting for failed transactions.
- Wrote **Python** scripts to automate data extraction and analysis from operational logs, reducing manual investigation time for transaction-flow issues by **30%**.
- Supported incident response for critical payment processing workflows, ensuring adherence to strict SLAs and contributing to robust audit trails and regulatory awareness.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
