PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Resolved complex customer-reported issues and managed escalations for Toast APIs and integrations, achieving a **95% first-contact resolution rate** through effective troubleshooting and expectation management.
- Developed and executed diagnostic plans for integration failures, proficiently using **Splunk** for log analysis and **Postman** for API request validation to identify root causes within defined SLAs.
- Managed direct customer and partner support interactions via phone and ticketing systems, documenting issues and solutions meticulously to ensure **100% compliance** with support ticket requirements.
- Automated data enrichment and reporting processes for customer integration metrics using **Python** scripting, reducing manual effort by **30%** and improving data accuracy for internal analytics.
- Collaborated with Senior API Integrations Experts to transition complex issues, providing comprehensive case notes and technical context to ensure seamless resolution and knowledge transfer.
- Contributed customer and vendor feedback to product improvement initiatives, acting as a liaison to advocate for enhanced API stability and functionality based on recurring support trends.

SKILLS

API Integrations – Technical Support, Customer Support, Vendor Management, Escalation Management, Postman, REST APIs.

Troubleshooting & Monitoring – System Troubleshooting, Log Analysis, Splunk, Dynatrace, Incident Response, SLA Management.

Programming & Scripting – Python, Java, Spring Boot, SQL.

Cloud & DevOps – AWS, Docker, Jenkins, Git.

Data Analysis & BI – Power BI, Tableau, DAX, Data Modelling, Data Warehousing.

Languages – English (Fluent), French (Fluent).

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Toast API Integration Health Monitoring Platform

- Engineered a proactive monitoring solution using **Python** and **Splunk** to track the health of critical Toast API integrations, reducing critical integration downtime by **20%**.
- Developed automated alert mechanisms within **AWS Lambda** that triggered based on anomalous API response times and error rates, notifying support teams within **5 minutes** of detection.

- Designed and implemented a standardized API testing framework using **Postman** collections and Newman, enabling automated regression testing for **50+** key integration endpoints.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Enhanced a payments operations dashboard by implementing real-time transaction monitoring for failed messages, contributing to a **15% reduction** in manual reconciliation efforts.
- Developed automated Python scripts to parse and validate inbound transaction data streams, ensuring data integrity and compliance with operational requirements across **millions of daily transactions**.
- Supported production environments with strict SLAs by actively participating in incident response, triaging issues, and documenting resolutions for audit trail purposes.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
