

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Accelerated software delivery by **40%** through integration of AI coding assistants into the development lifecycle, automating documentation and unit testing.
- Developed and deployed robust **full-stack SaaS applications**, enhancing feature velocity by **30%** while maintaining high operational uptime in a cloud environment.
- Integrated new **AI agents** into **CI/CD pipelines**, automating repetitive engineering tasks and reducing manual intervention by **25%**.
- Partnered with Product Managers to leverage **AI tooling** for rapid prototyping and requirements discovery, shortening ideation cycles by **15%**.
- Managed production support for a **payments operations dashboard**, achieving **99.95% SLA** adherence through proactive monitoring and incident response.
- Supported and integrated with **enterprise business systems**, including ERP modules, facilitating cross-system integrations via **REST APIs** and reducing data discrepancy incidents by **18%**.

SKILLS

AI & ML Tools – GitHub Copilot, Cursor, AI Agents

Backend Development – Node.js, Java, Spring Boot, .NET Core

Frontend Development – React, Angular

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, CI/CD Pipelines

Databases – PostgreSQL, MySQL, Oracle, SQL

Observability & Monitoring – Splunk, Dynatrace, CloudWatch

Methodologies – Agile, Scrum, Product-Minded Engineering, Automated Validation

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

AI-Augmented Development Lifecycle Accelerator (HCL Technologies)

- Engineered a novel integration framework for **AI coding assistants** within existing **CI/CD pipelines**, reducing average PR review time by **35%**.
- Developed Python scripts to automate the generation of comprehensive unit tests and API documentation, improving code coverage by **20%** and reducing manual documentation effort by **50%**.

- Implemented a feedback loop mechanism for AI agent suggestions, contributing to a **15%** increase in the accuracy of generated code snippets for common engineering tasks.

Financial Transaction Monitoring & Alerting System (HCL Technologies)

- Built and maintained a **payments operations dashboard** for a financial services client, focusing on **transaction monitoring** and operational alerting for failed messages.
- Developed **Java Spring Boot** microservices to process high-volume transaction data streams, ensuring **99.99% uptime** and adherence to strict SLAs.
- Collaborated with business analysts to define requirements for **reconciliation workflows** and implement new alerting rules, reducing critical incident response times by **22%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
