PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Provided **first and second-line support** for business-critical **Java Spring Boot** applications and a financial-services dashboard, resolving over **150 P1/P2 incidents** and maintaining **99.9% SLA** adherence.
- Automated data validation and report generation processes using **Python scripting**, reducing manual effort by **30%** and enabling faster turnaround for operational analytics.
- Developed and maintained **REST APIs** within a **Java Spring Boot** framework, facilitating seamless integration between enterprise systems and supporting **500+ daily transactions**.
- Managed software installations and system configurations for **ERP systems** and operational platforms, coordinating User Acceptance Testing (UAT) for **10+ critical updates** annually.
- Designed and implemented **Power BI dashboards** for financial reporting and transaction monitoring, enabling stakeholders to visualize key performance indicators and improving decision-making efficiency by an estimated **20%**.
- Ensured compliance with **GDPR** and internal IT security standards by maintaining audit trails and implementing access controls across production environments, successfully supporting **2 IT audits**.

SKILLS

Core Engineering – Java, Spring Boot, Python, REST APIs, SQL, Linux, Git, Docker

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Jenkins, CI/CD

Business Systems – ERP Systems Support, Change Management, System Integrations, UAT Coordination

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, SQL, R, pandas, NumPy

Monitoring & Support – Splunk, Dynatrace, CloudWatch, Incident Response, SLA Management, Technical Documentation, End-User Training

Compliance & Security – GDPR, IT Security Standards, Audit Support

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Industrial Automation Workflow Orchestration Platform (HCL Technologies)

- Engineered a Python-based workflow orchestration engine to integrate **CAD software** (PTC Creo) with manufacturing execution systems, improving design-to-production cycle times by **15%**.
- Developed real-time monitoring dashboards in **Power BI** that visualized production line status, equipment performance, and compliance with **ISO 9001** standards, reducing downtime by **10%**.

- Implemented automated data pipelines using **SQL** across PostgreSQL and Oracle databases for capturing and analyzing engineering design data, supporting **1TB+** of daily data ingestion and processing.

Financial Transaction Monitoring & Reconciliation Dashboard (HCL Technologies)

- Enhanced a **payments operations dashboard** by implementing robust transaction monitoring and reconciliation workflows, improving the identification of discrepancies by **25%**.
- Developed **Java Spring Boot** microservices for real-time alerting on failed payment messages, ensuring adherence to strict SLAs and regulatory compliance requirements.
- Provided production support for the dashboard, troubleshooting issues and performing root cause analysis using **Splunk** logs and **Dynatrace** monitoring, maintaining **99.95%** uptime.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
