PROJECTS

Enterprise IAM Cloud Governance Platform (HCL Technologies)

- Designed and deployed a comprehensive **cloud governance platform** on **Azure** to enforce **least privilege access policies** and manage **RBAC** for over **10,000 users**.
- Integrated **Entra ID** with federated identity providers using **SAML** and **OAuth**, enabling seamless single sign-on (SSO) for critical enterprise applications and reducing authentication support tickets by **30%**.

- Developed automated workflows using **Python** and the **Microsoft Graph API** for regular **access reviews** and compliance monitoring, ensuring adherence to regulatory requirements and passing all internal security audits.

Payments Operations Dashboard Enhancements (HCL Technologies)

- Enhanced a **payments operations dashboard** by implementing real-time **transaction monitoring** alerts for failed payment messages, decreasing average incident response time by **25%**.
- Developed automated data validation scripts in **Python** for **reconciliation workflows**, improving data accuracy and reducing manual reconciliation efforts by **40%**.
- Managed change control processes and deployed updates to production environments using **Jenkins**, ensuring adherence to strict SLAs and maintaining audit trail integrity.
