PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed and resolved **150+ daily IT support tickets** for faculty, staff, and students, ensuring timely resolution within **4-hour SLA targets** by performing **hardware and software troubleshooting**.
- Executed **workstation support and installations** for over **300 new and existing university devices**, ensuring seamless integration with the university's network infrastructure and compliance with IT policies.
- Automated routine IT support tasks using **Python scripting**, reducing manual intervention time for common issues by **20%** and improving overall service desk efficiency.
- Provided **first and second-level ICT support**, addressing customer requests and incidents related to **network connectivity, application access, and printer services**, maintaining a **95% customer satisfaction rate**.
- Documented IT procedures and user guides for common software and hardware issues, contributing to a **15% reduction in repeat inquiries** and enhancing self-service support capabilities.
- Collaborated with the IT Services team to implement and maintain **IT asset management** processes, ensuring accurate tracking of over **1,000 university hardware assets**.

SKILLS

Desktop Support – Hardware Troubleshooting, Software Installation, Workstation Support, Network Connectivity, Printer Support, IT Asset Management.

Operating Systems – Linux, Windows.

Scripting & Automation – Python, Shell Scripting.

Monitoring & Ticketing – Splunk, Dynatrace, Jira, Confluence.

Cloud & Virtualization – AWS (EC2, S3, Lambda), Docker.

Databases – PostgreSQL, MySQL, Oracle.

Development Practices – Git, Jenkins, REST APIs.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

University-Wide ICT Support Automation Platform (HCL Technologies)

- Developed an automated diagnostic and resolution tool using **Python and shell scripting** to address common workstation issues, reducing average ticket resolution time by **30%** for Tier 1 support.
- Integrated the platform with **Jira and Splunk** to automatically log, track, and analyze recurring IT problems, enabling proactive identification of systemic issues across **5,000+ university devices**.

- Designed and implemented a user-friendly interface for IT staff to deploy automated fixes and gather diagnostic data, improving the efficiency of **hardware and software troubleshooting** for faculty and staff.

Enterprise Application Monitoring & Incident Response Dashboard (HCL Technologies)

- Engineered real-time operational alerting and transaction monitoring for a critical payments operations dashboard, decreasing the mean time to detect critical incidents by **50%**.
- Developed automated data pipelines using **Python and SQL** to ingest and process logs from **Splunk and Dynatrace**, providing cross-system visibility for **incident response** and root cause analysis.
- Managed change control processes for production environment updates, ensuring **99.9% uptime** and adherence to strict audit trail and regulatory awareness requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
