PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Designed and implemented **core banking product logic**, including accounts, deposits, and interest accrual, on a modern ledger platform, ensuring **99.95% accuracy** in financial postings.
- Developed **integration services and APIs** for seamless data exchange between core banking systems and downstream channels such as payments and CRM, reducing data latency by **30%**.
- Built and maintained **ledger-posting logic** that is accurate, auditable, and idempotent, supporting complex financial events and lifecycle states with **zero discrepancies** in reconciliation.
- Configured **product parameters and lifecycle states** for accounts and lending products, enabling automated processing of onboarding, maturity, and closure events for a portfolio of **100,000+ accounts**.
- Implemented **event-driven integrations** using pub/sub patterns, ensuring robust error handling and reconciliation mechanisms that maintained **99.99% message delivery** for critical financial transactions.
- Troubleshoot and resolved production issues on a **core banking platform**, focusing on root-cause analysis and stability improvements, leading to a **15% reduction** in critical incidents.

SKILLS

Core Banking Platforms – Thought Machine Vault (equivalent), Ledger Engines, Product Configuration, Lifecycle States, Posting Logic

API Development & Integration – REST APIs, Microservices, Event-Driven Architecture, Pub/Sub, Integration Services

Financial Systems & Controls – Double-Entry Accounting, Financial Postings, Reconciliation Workflows, Audit Trails, Regulatory Reporting, GDPR Compliance

Programming Languages – Java, Spring Boot, Python, SQL, R

Databases & Data Warehousing – PostgreSQL, MySQL, Oracle, Data Modelling, Data Warehousing

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD

Testing & Quality Assurance – Unit Testing, Integration Testing, Contract Testing, Test Automation, Golden Datasets

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Digital Lending Product Engine (HCL Technologies)

- Architected and developed a **digital lending product engine** on a cloud-native platform, implementing configurable logic for loan origination, interest calculation, and repayment scheduling.

- Integrated the lending engine with **upstream and downstream systems** via REST APIs and event streams, facilitating seamless data flow for credit scoring, account management, and payment processing.
- Implemented comprehensive **test automation harnesses** including reconciliation checks and simulation testing for financial logic, achieving **99.98% test pass rates** before production deployment.

Automated Transaction Monitoring Dashboard (HCL Technologies)

- Engineered a **payments operations dashboard** that monitored transaction flows in real-time, surfacing alerts for failed or delayed payment messages, supporting a major financial services client.
- Developed Python scripts for data ingestion and transformation from multiple sources into a PostgreSQL data warehouse, enabling efficient querying and analysis of **millions of daily transactions**.
- Collaborated with business analysts to define alerting rules and reconciliation workflows, improving operational efficiency and reducing manual intervention by **20%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
